

# YEARBOOK

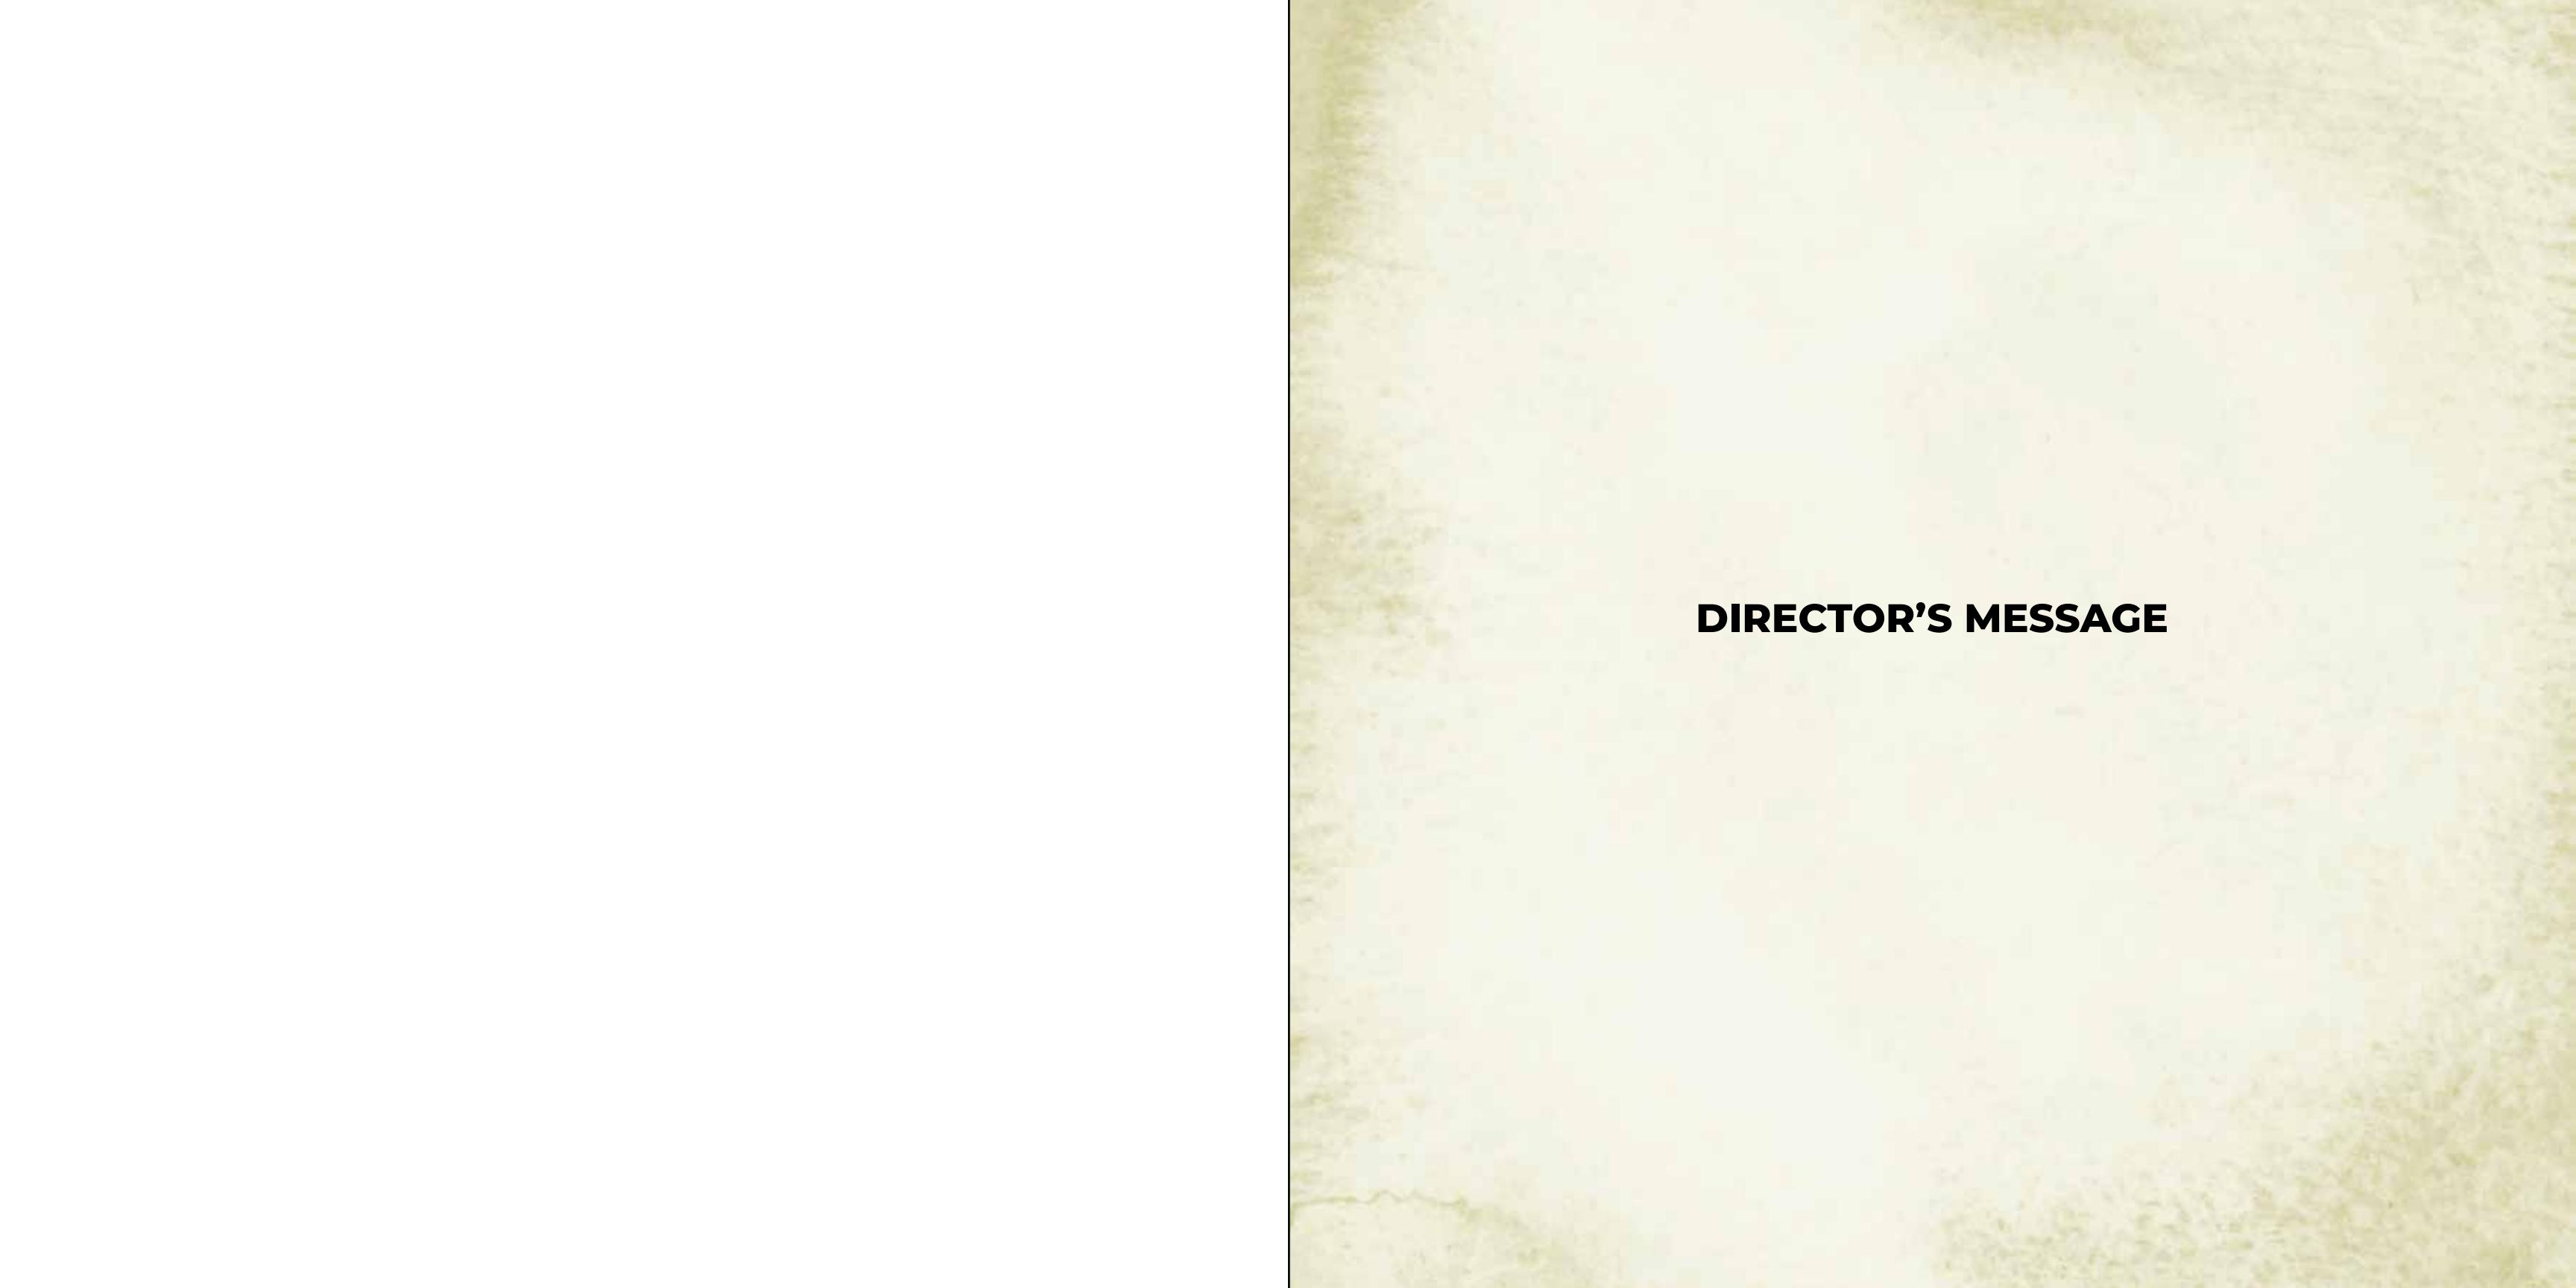

Batch of 2020

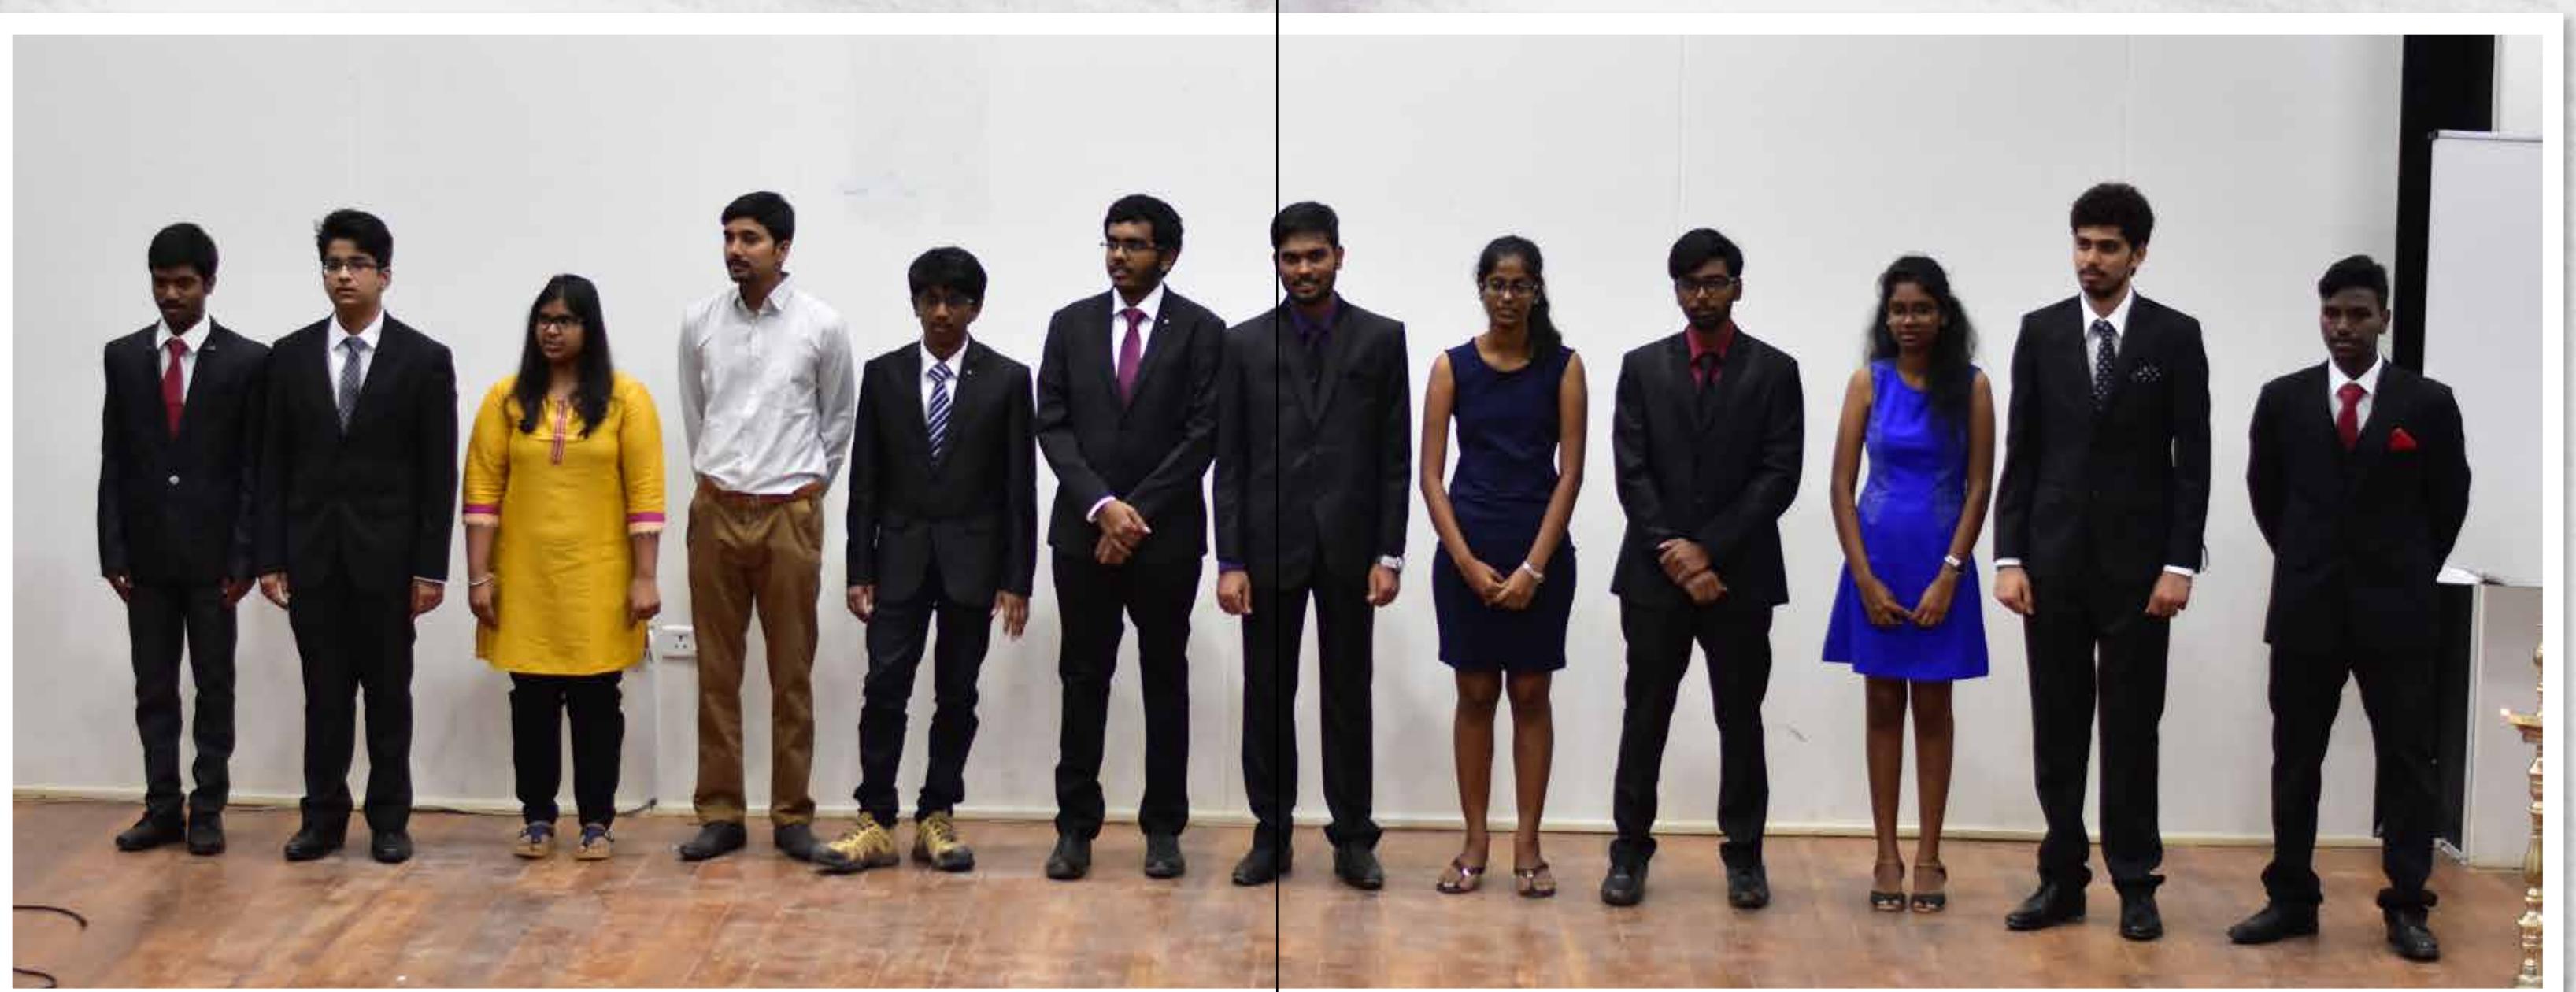

नारतीय प्रौद्योगिकी संस्थान हैदराबाद  
Indian Institute of Technology Hyderabad

Our memories at one place

## **DIRECTOR'S MESSAGE**

# STUDENT GYMKHANA 2018-2019

One of the student groups that work tirelessly to make our college life better is the Gymkhana, the student body of IITH. The work ethics, responsibilities, and dedication they show is hugely inspiring and is an important lesson to learn for us all. Our current batch strength of 3000+ students deserve to learn these from the best and hence we have our very own past gymkhana team sharing their memories and piece of advice.

**VISHWAJITH RATHOD J- GENERAL SECRETARY:****Accomplishments:**

Installed water cans and washing machines in every floor.

Made 24\*7 transportation system available

Celebrations of regional cultural festivals under EBSB was initiated.

Constructed toilets for shedlabs for PG students.

Rules were changed to allow girls inside the boys hostel.

"Hello everyone,

In four years of my life I have learned a lot, I thank all my professors and teaching assistants for their support. I personally thank the then director prof U.B Desai for all his constant support and unique ideas which not only shaped my career but also helped many students like me. I want to thank all the wardens especially for their guidance and continuous support for making life at IITH easier.

My heartfelt thanks for all the friends who stood by me in my difficulties and I apologize if I have hurt someone in my journey.

All the best for your future endeavours" -Vishwajith Rathod J

**UTTARAN SINHA- PG REP****Accomplishments:**

Organised the farewell and freshers for PG students

Installed laptop chargers near the seating area of 3rd and 4th floor of Acad A

"I hope all students are safe and faring well in these uncertain times. Although it is very difficult to feel a part of the IITH family when studying from home, I am sure everything will be back to normal very soon. Let us pray for the affected and hope for a better tomorrow."

**SNEHITH AITHU - SCITECH SECRETARY****Accomplishments:**

Started a new Aero club - The aeronautics and drone design club

Conducted a 24-hour long hackathon in collaboration with Honeywell with a prize pool of 1.5 Lakhs.

Started a week long intra-college technical competitions ( named as Sci-Tech Week), this can also be said as the longest event in the history of IIT Hyderabad.

We had active participation in the Smart India Hackathon which is conducted by MHRD, Government of India. One of our team from Electronica club went to finals even."

**LOKESH - UG REPRESENTATIVE:**

"My term as UG Rep was quite unconventional when compared to the previous one's because of the challenges that came up one after one.

It taught me

\* how to stay tough no matter what the problem is.

\* how to efficiently use limited resources that are available.

Thanks to organizing teams, EML team that we were able to pull-off all the events successfully despite all the hurdles that came our way."

**JEEVAN CHANDRA - SPORTS SECRETARY:****Accomplishments :**

Led the 120 member contingent as a Sports Secretary, holding the IITH flag high in 53rd Inter IIT Sports Meet held at IIT Guwahati.

Message:

"To reach the top, one has to start from the bottom of the ladder". I have always believed in that, and a strong foundation in sports shall bring out the best of IITH Sports culture, eventually bringing laurels to the institute.

Developing a sports ecosystem in a young IIT like ours is a challenging one.

"To reach the top, one has to start from the bottom of the ladder".

## CULTURAL COUNCIL

The Campus life of us students is incomplete without the Cultural Events. These events bring the entire Campus to life.

Be it grooving to the DJ while overdosing on Ice Cream on the Ice-Cream nights or Showcasing your talents during Open Mics, there is one thing that one can't deny and that's that these events bring with them a lot of fun and happiness to all of us. These are events that most of us look forward to.

It wouldn't be an exaggeration to say that these Days give us relief from all the stresses that are built up Because of a multitude of reasons and enjoy to our heart's content.

Speaking of Cultural Events, one cannot forget about the various cultural clubs that we have. One Simplify cannot forget things like Loud Music from the Vibes members' Practice sessions on the UDH stage, the enthusiastic bunch inside the Dancing room, the passionate RDM members' practice sessions before any Cultural event, or the Fun Quizzes and Debates conducted by Litsoc. We couldn't have imagined our Campus life without all these clubs and events. These events and clubs have played a huge part in us making all the Friends we've made during our campus lives and gave us these Special Memories that would go on to stay with us throughout our lives.

## INTER IIT CULTI

From their 1st year, the 2020 batch has been proving their excellence in all the Inter IIT Cultural meet gaining experience and moving a step forward every year. The late-night practices hoping for selection, train journeys, convincing passengers to exchange their seats, roaming the campus of IIT Bombay with a feeling of superiority, mustering up the courage to compete with other IITs, the experience of performing on the big stage, getting close to the juniors and seniors are memories that can never be forgotten.

## SPORTS COUNCIL

Sports are one of the best ways to have fun with friends. It could be Borrowing your friend's Table tennis bat to play TT or occupying the Football ground to Play Cricket and Football or Playing Basketball and Volleyball late at nights. Playing these sports with buddies was a great way to relax, have fun and also stay active and healthy.

At the same time, everyone trying their best to complete their NSS hours with a lot of 'jugaad' made a lot of us come up with innovative methods. Students trying their best to get into the Inter IIT team or teams for other competitions like Milan induced a Lot of Competitive spirit among us and also taught us the power of teamwork. This way the Sports Activities too played a key role in shaping our years in the Campus.

## INTER IIT SPORTS

Inter IIT sports fest is like a dream true for many playing at such a big stage. From making sports a habit to keep the body healthy, fit, and refreshing to representing IIT Hyderabad the journey gives many sweet memories. The endless effort of months in teams always will be the most memorable days of one's life. The journeys, interacting with juniors, spending the final year of college in such a memorable way will be an ever refreshing memory for all.

## SCIENCE AND TECHNOLOGICAL COUNCIL

Every esteemed university has its fair share of clubs dedicated to various fields, here is a collection of clubs meant for those who wish to quench their thirst for knowledge.

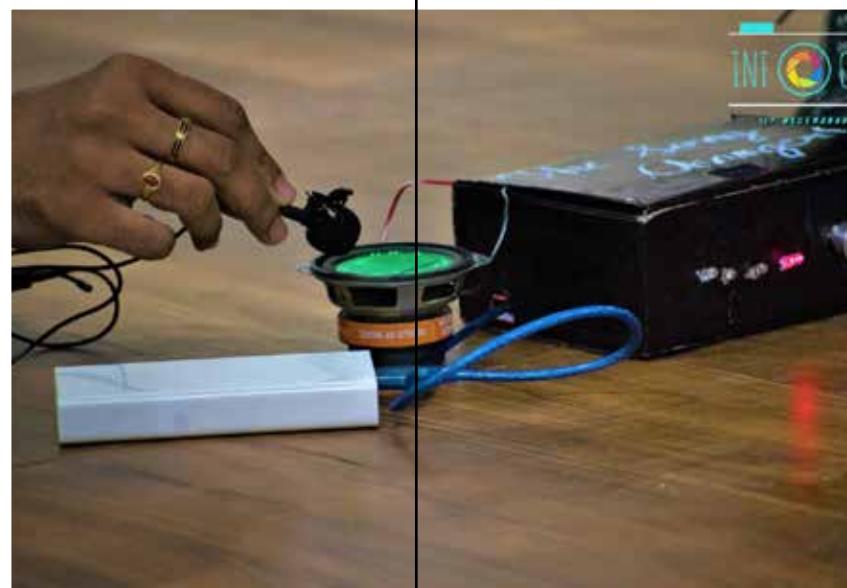

SciTech is a unified organization of various technological clubs whose aim is to inculcate scientific innovations to solve technological challenges faced in the real and virtual worlds whilst also making the process fun and frolic. Many clubs fall under the wing of SciTech: Robotix, Electronika, Cepheid, Aero Club, Kludge, Infero, Lambda, Torque, Epoch, and Prakriti.

The platform where the SciTech clubs show off their talents and skills while bringing recognition to the college is Inter IIT Tech Meet, the annual technological competition organized by the IITs for the IITs. The batch of 2020 has made major contributions to achievements in Inter IIT Tech Meet. In the previous Inter IIT, we bagged Silver medals in Ashoka Challenge(Tech for Change), Bosch Rote Optimization Challenge, NeenOpal's Case Study, we also received a Bronze medal in Coding Hackathon. IIT-Hyderabad was ranked 8th overall, this is an outstanding result!

Inter IIT Tech Meet 2019 was probably the best Tech Meet of IITH. The train journeys, playing UNO, watching movies, last-minute presentations, low-cost food at IIT Roorkee cafeteria, mail threads to reduce the prices in our cafeteria, etc, have a special place in our hearts.

Let's hear what Snehith, the Scitech secretary from the batch of 2020, has to say:

"Being a SciTech secy is not an easy job. You have to manage various clubs at the same time, negotiate with professors for permissions and funding, prepare for Inter IIT Tech Meet, and be the bridge between students and professors. It was a team effort to help people come up with new ideas, initiatives, and to bring them to life which is a difficult task. But what matters the most is that we have the freedom to learn something new every time. I felt such great pride representing IITH at Inter IIT Tech Meet. Shouldering this responsibility has taught me how to be a good leader, how to assess a situation and make decisions. I will miss the support from the seniors and professors for the implementation of our ideas and the development of the clubs. I would finally like to thank the coordinators, cores, professors, my gymkhana team, the student community, and my dear friends who helped and supported me in this wonderful journey. It was a beautiful experience with SciTech!"

## ELAN AND NVISION

Elan and Nvision - the annual techno-cultural fest is known for bringing the best memories and fun for the students of IITH. The fraternity of Elan and Nvision team( the organizing committee) works together with the single minded ambition of providing the whole university with the 3 best days of their life.

Their work ethics, ambitions and responsibilities set examples for the other students. From saving up money to binge on the food stalls to trying to look our best for the best pictures, we all undergo a transformation. Elan and Nvision- the much needed break amidst assignments and exams, the time of the year you feel the adrenaline rush that boosts your energy for the year.

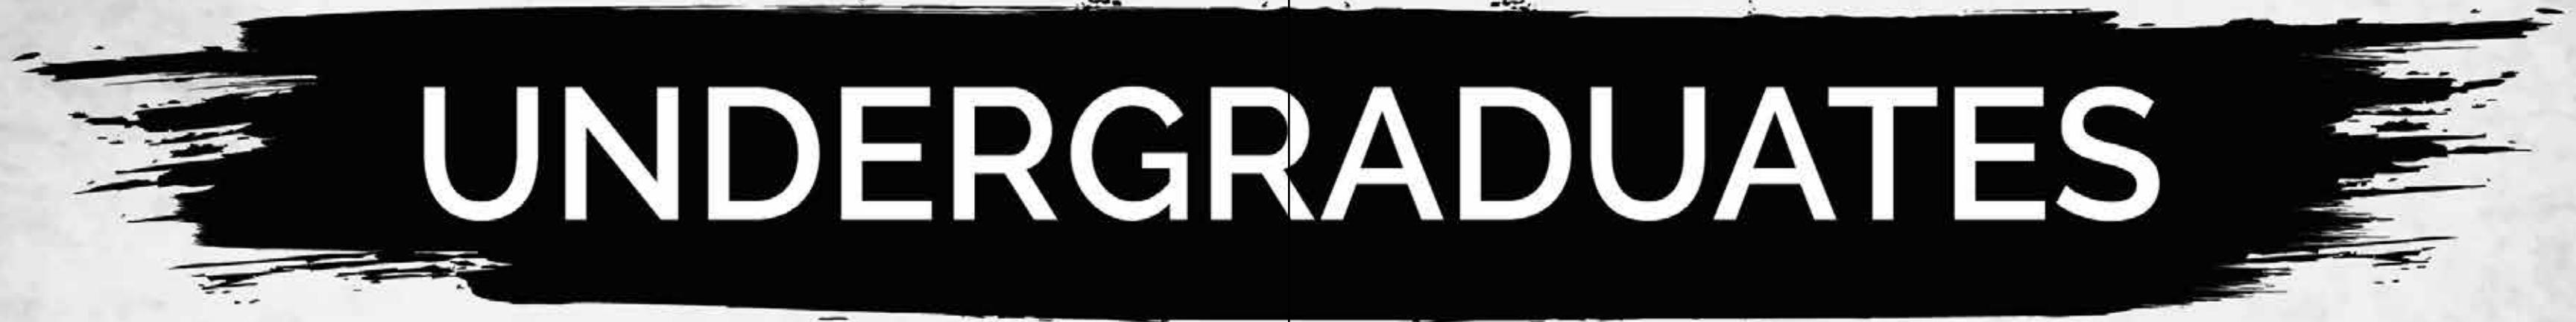

We all can safely say that's the time of the year we feel alive. Seeing our favourite stars up so close, banging our heads to the concert, dancing till we can't breathe anymore! Whoosh they constitute a tiny fraction of the plethora of emotions that we go through every year. If we ever decide to take a jog down the memory lane, Elan and Nvision would feed our Nostalgia.

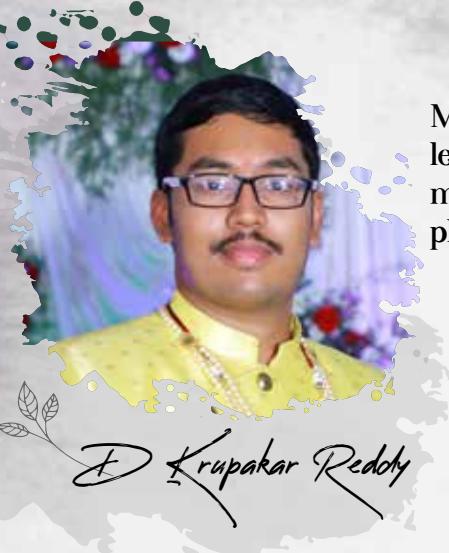

## MILAN

Milan is the annual techno-cultural-sports general championship of IIT Hyderabad. This event brings an emotional feel to the batch of 2020 for it being the first and last Milan the 2020 batch witness. This event brought unity and healthy competitions among students of all the blocks. Though Milan 2020 is the first edition, every student put in their utmost thought and effort to represent their block and be the best. Milan reminds hostel representatives of finding and convincing people wandering through the blocks for participation. All of us, UG or PG, experienced or not have come forward, united together and proved their block is the best. Many of us have gone a step forward in their personal interest or participated the first time, might be poetry, fashion show, dance, film making what not. We got a glimpse into the hidden creative talents people had while decorating the hostels. From shirts and pajamas to models and costume designers and using the weird properties given to us during costume designing gave us really an everlasting experience. Late-night music practice at mess, last-minute participation, face-painting, getting dressed up for fashion shows though we know nothing about it, dance practices in hostel blocks and so many beautiful memories filled our heart with happiness. We always remember the students who were always there only to cheer their block. Rallies of the blocks showing their success are never to be forgotten. Milan 2020 holds a special place in everybody's heart.

**UNDERGRADUATES**

My time at IITH has been the most exciting part of my life. The things I have learnt, both inside and outside the class, have had a profound impact on me and made me a better person. The institute and its people will always have a special place in my life.

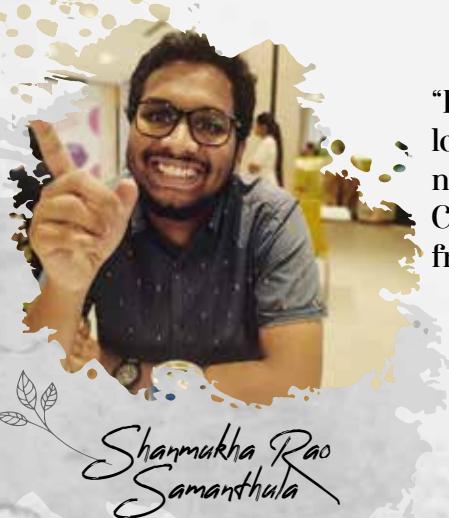

D Krupakar Reddy

---

Had a nice time. Made good friends. Explored my interests. Enjoyed playing sports, football was my favorite. I am grateful to the professors and staff for helping me pursue my interests. I would like to thank my friends and students at IITH for inspiring me and for giving me a wonderful experience.

Sai Dhivaji Rampalli

“Four Years” Not just two words, those two words consist of lots of emotions, a lot of pain and hard work, remarkable life. IIT Hyderabad is a place in which I will never forget in my life. These four years at IITH are the best in my life. Friends, Career. I learned about the concept called “LIFE” here only. Friends: IIT Hyd. Gave friends whom I never leave, and they never leave me.

Sharmantha Rao  
Samanthula

All I had was mixed feelings. From not liking the college as it was only in the beginning phases when I first joined, to loving the college so much that I still want to be in college. I'm not sure when it happened, but it became a Home to me and I'll miss my home.

Ramula Bhargav Ram

---

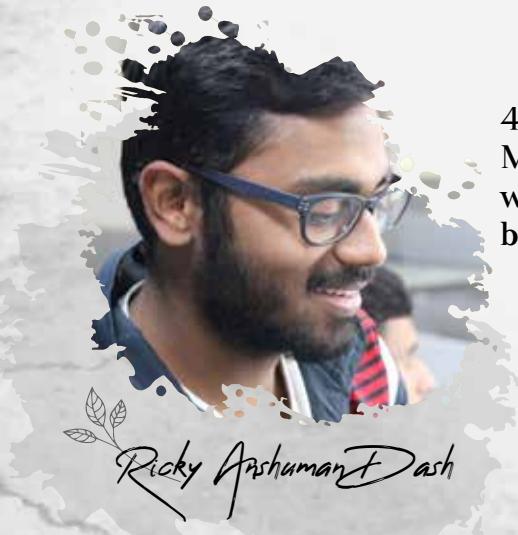

Joining clubs, late-night walks, exploring ODF premises, 20-25 minutes bus trips between Kandi & ODF, Icecream & DJ nights, Student gymkhana elections, experience in IITH-Racing team, CB for dinner on Sundays, IPL screenings, ELAN & Nvision fests, NSS activities, asking classmates for assignments, group-study preparation & seating arrangements for exams.

Kota Akshar

---

4 years filled with unforgettable moments. Moments I enjoyed, I suffered. Moments which taught me a lot about life. Most memorable incident for me would probably be shifting from ODF to Kandi, which began in disappointment but ended in such a sweet and happy manner.

Ricky Arshuman Dash

I spent four years trying to run away from home and now I'm back to my high school bedroom : a new Disney original movie

*Gitanjali Manepalli*

IITH a beautiful place and my home for 4 years. It gave me a beautiful life which I can never have again in my life. I have learnt a lot of things from IITH and fraternity.. Most importantly my friends who made my life in IITH awesome and memorable... Those late night walks, roaming all around the campus with them were amazing times I would say. Had a great time being part of inter iit sports meet for 3 years and with one time singing experience. I'm so blessed to be part of iith. Thanks for all the love and support IITH....Gonna miss you and my amigos !!

*Ameera Salarna Naik*

*Keerthi*

My experience? It has been quite an adventure. I miss everything about IITH, my second home. Being a part of the dance club, I gained confidence, made new friends and memories. It may sound cliché but I really evolved as a person through my experiences at IITH.

*Siripuram Sai Bharadwaj*

It's hard to believe that from now there won't be any Dj-Ice cream nights, Zam Zam ka biryani, weekend funfilled CA's, working for ELAN fest, late-night walks, swimming pool, exam preparations..... I can't believe how quickly time passes. See you soon, IITH!

*Pradyumna M P Dinni*

*Akash Kotte*

I feel I have been very lucky that I did my BTech in IIT Hyderabad, not becoz of the IIT tag but becoz of the friends which I earned . I really want now to thank my friends for being the light of my life, they stood with me in my ups and downs. For the incomparable love, care, support and trust we had between us. We all had our moments and you guys really made me feel special. The most invaluable assets I have earned during 4 yrs of stay at IIT Hyderabad is your friendship. I won't say anything else about our college, becoz we all know it's the best in the country. I will end by saying that these 4 years which I spent with you guys were the most beautiful years of my life, and the memories which we had together, I will cherish them forever.

My BTech is insignificant without Team IITH RACING. We design and manufacture ATVs for student racing competitions. I had a chance to attend 5 professional competitions. We worked very hard, sometimes we used to have restless nights in ODF (even in 2019) just to work. Lessons learned are 'to have faith in team members' and 'to have compassion'.

Jadi Radha Krishna

College, for me was full of exploration. A ride passing via all stations of study, sports and culture. Going through Magic highs and depressing lows. Passengers onboard became family. This train was my best journey, now onboard for the next ride.

Madhur Gupta

The experience is one of a kind. I cherished the moment playing CSGO, PUBG with my pod mates during lunch breaks. I enjoyed the time playing Volleyball and Cricket at midnight even during placement times. My pod mates used to go to ZamZam almost 3 times per week to eat Biryani. If it was not possible to go then we used to order from swiggy or other means. I like the mess food especially during sundays when we used to get unlimited Chicken Biryani in my 1st and 2nd years. The atmosphere of ODF was peaceful and great. We also used to go to vantillu to eat different types of puloa and tried every single one of them. Even during some serious times like during exams and placement we pod mates always enjoyed and had fun times. The experience was awesome and would never forget about it.

Thamati Ujjieve

Janmejay D. Kulkarni

I still remember the day I got IITH during my counselling. I was excited and nervous at the same time as for the first time I was going this far from my home. Now, when I look back at the days spent at IITH, I find these to be the most beautiful days I could have had. I met some the most smart and hardworking people here and made few friends for life. So much learning, so many experiences and millions of memories to cherish.

Mohammad Ajaz

Abhishek Singh

Whenever I think about IITH, it humbles me and fills me with gratitude for what it has given me. I met many great people and developed Life long friendships with them. Although I broke my left knee while playing volleyball, but the good things outweighed that little pain :). IITH changed me from aggressive and naive to humble and mature person. It changed the way I looked at world. I learnt that people and relationships are more important than grades.

Vineesh Kumar Singh

One of the most interesting stages in life that gives you an opportunity to explore is the ?college phase.? Life at college is the time when the teenage years end and we all dive deep into the ocean of new beginnings and possibilities. This golden period better equips you for all the challenges you?ll face in life and creates a strong foundation of knowledge. My experience at IIT HYDERABAD has taught me one fundamental thing ? life is unpredictable. It might be good, it might be bad, it might be weird, and it might not interest you, but expect anything to happen.

For example, you might have a wonderful job this moment, and be fired the very next moment. College life prepares you for all of this. It is a perfect blend of joy and hardships. It was wonderful time of my Life till now. I will surely miss.

---

I had quite a roller coaster kind of experience. I had ups and downs of my life, times of pleasure and happiness, sadness, joy, triumph, and depression, which I'll cherish forever. It is a mini version of life packed into four wholesome years with a fairy-tale twist, turns, and ending.

Lalithaditya Prahasith  
Maddury

The last four years at IITH have been the most impactful ones I have had in my life. I changed for the better because of the many many things that I have seen and experienced, because of the people I met, and most of all, because of the environment that enabled it all. My time at IITH had its ups and downs but I wouldn't trade it for anything in the world.

Chilukuri Prabath Goutham  
Reddy

The experiences I had in IITH will always stay close to my heart. From last-minute assignment submission to the late-night walks are my precious memories. Most importantly, I miss the campus and its environment. I want to thank my friends, my seniors, my teachers who have taught me not just academics but precious life lessons.

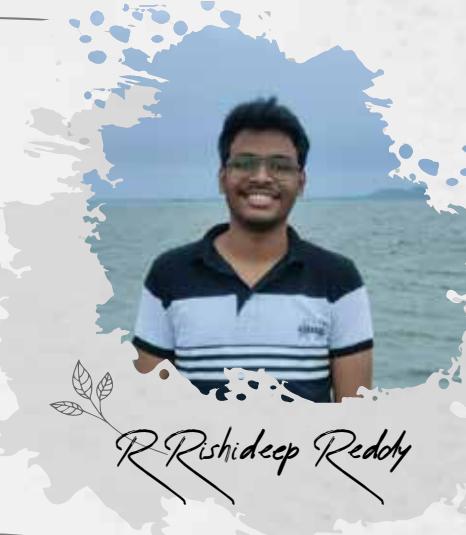

Saurav Varaprasad  
Chennuri

Hritik N Chavan

---

It is one of my best experience till now. My journey with the college started in ODF and ended in Kandi. There were many joyful and hardship moments. Every experience made me a better person. Miss that freedom and late-night discussions.

R Rishideep Reddy

---

Its been an incredible journey for the last four years. The people I met here are impressive and crazy, and their friendship is something I would cherish all my life. It is the memories that we made here, which will last forever and keep us connected to this place.

Hi friends, This has been an amazing and an exhilarating journey. So many wonderful memories, starting from days at ODF with many first bus(8AM) adventures to multiple endless nights of Pod games and ripostes between us. From our first year to very last day in March, wherever we had gone, we were always as a group be it dining, classes or anywhere... I'll cherish these all through my life and finally sign-off by a quote of John Lennon "Time you enjoy wasting, was not wasted.?"

Pelli Venkata Lalitha  
Thribhavan

Assignments. Presentations. Maggie. Amul. Kings. Zam Zam. Sangareddy cinemas. Icecream (& DJ) night. ODF - Kandi Bus. Though not 50, these words fill the experience.

Pradeep Moturi

Kundan Manupati

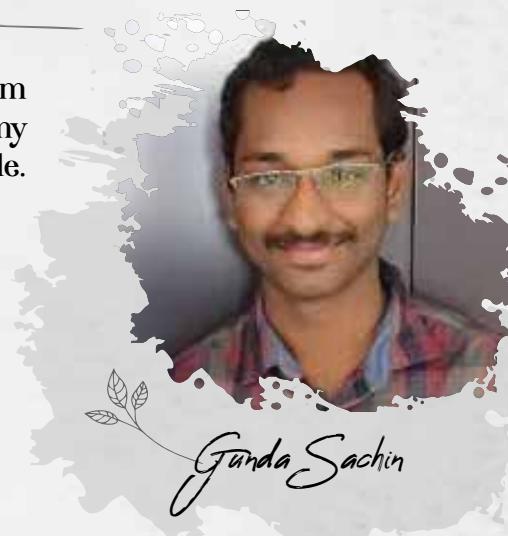

4 years huh it's been a roller coaster ride and badminton people played the important role. Those pod moments with friends , representing the college team and leading them all those memories I will cherish my entire life though I can't still believe that we completed our last moments like this but I am sure we will make most it when this ends. I will miss my college. And I will be proud of myself for captaining the badminton college team for 2 years and winning milan tournament

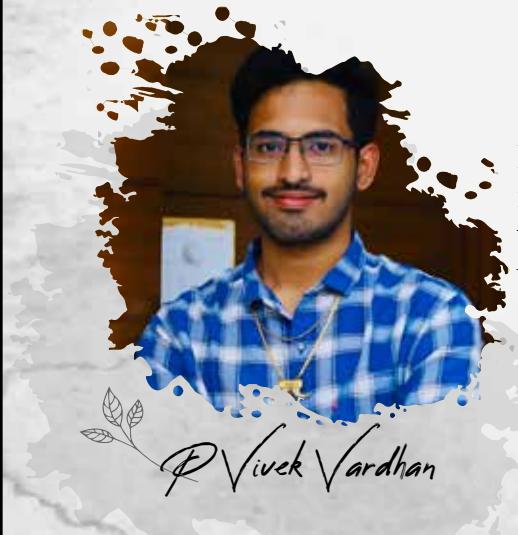

Balaji Sree Bhargavi

Hi friends, This has been an amazing and exhilarating journey. So many wonderful memories, starting from days at ODF with many first bus(8 AM) adventures to multiple endless nights of Pod games and ripostes between us. From our first year to the very last day in March, wherever we had gone, we were always as a group be it dining, classes, or anywhere...

I'll cherish these all through my life and finally, sign-off with a quote from John Lennon "Time you enjoy wasting, was not wasted."

Ganda Sachin

R Vivek Vardhan

"I'm thankful to our college for all the exposure and opportunities. I'm thankful to our faculty for inspiration and guidance. I'm thankful to all my friends for supporting me and making my college life much more enjoyable.

"

Sudhantha Chawhan

As a tiny caterpillar I came to IITH, as a butterfly I left, ready to face the world. IITH is the pupa in which I grew my wings. I learnt how to face real challenges in life. I became independent. I met amazing people and made friends for life. I made countless memories that live in my heart. It took me 4 years and 1 degree to realize, that H stands for Home.

Samhitha Khatravath

From ODF to Kandi, mess to night-canteen, early morning walks to night Nescafe talks, strangers to friends, projects to quizzes, internship rejections to happy placements - been a wonderful phase. I think I have made amazing memories here and now have a better past to think about. To anyone reading this, May the force be with you!

Rashni Pande

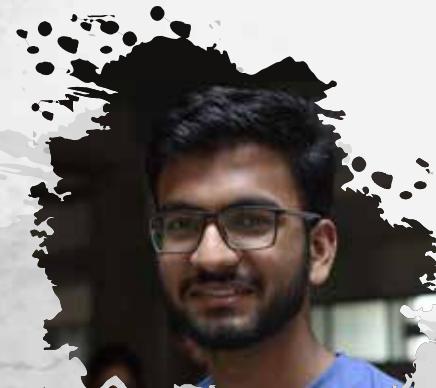

V.sreeja Reddy

Between longing for "Ghar ka khana" and "Next sem ache se karenge", I found my support systems who would not only manage my proxy and get me food from a cafe on lazy days but leave no opportunity to humiliate me in front of professors. The countless memories that one could make in just 3 days of Elan&Nvision every year never fails to surprise me. Real happiness was hidden in this frenzy of emotions ❤️

Malgajgiri Bhavya

Pramudit Tripathi

I've learnt life here, at least some of it.

V.sreeja Reddy

From my dad saying "You worked for this? Let's go join other college" looking at odf and deserted Kandi camous to "Campus is great, sad that you have to leave now" everything worked out. I wish I can go back and tell my confused post JEE self and worried single girl in Mechanical that all those regretted choices will at last give not just a satisfied but a complete experience and a happy end.

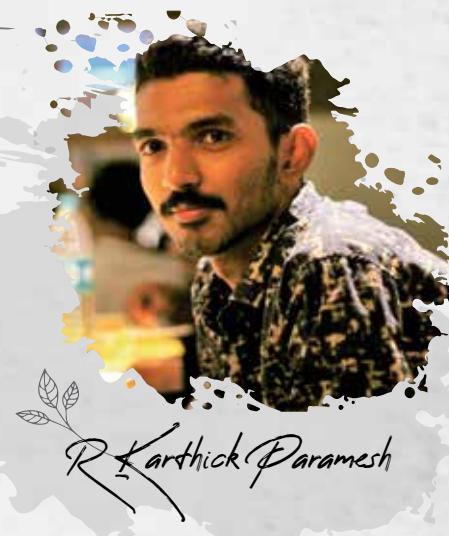

IITH will hold several fond memories, from the spicy Hyderabadi style dhabas around campus to the academic freedom granted students allowing me to explore my interests in Mathematics and eventually switch career paths, and the lengthy drawn out lazing away in friends rooms on many a hot summer eve.

Karthik R

My journey at IIT Hyderabad was full of ups-and-downs. But the one theme that remained constant throughout was me living my dreams and following my passion. I was never afraid to go against the tide and this attitude helped me explore and understand myself. In the end of it all, I have only emerged stronger. I have made friends for life at IIT Hyderabad. Looking back only makes me realise how blissful those days in the company of fantastic people! You only live once, but if you do it right, once is enough.

Diyush Udhyan

R. Karthick Paramesh

IITH has given me more cherish-able moments. I feel more independent, confident, and secure when I'm inside the campus than in my home. College is about learning by making many contacts; otherwise, it'll be equivalent to an online certification program. The number of people I met, the memories and experience I gained from the diverse people can't be achieved by any other means. I have learned the least expected things I thought I would learn, like never in my wildest dreams I thought I'll learn Kathak, flamenco dance, etc. and change my career in entirely different stream. Speaking of college life, the common in all my peer's experiences will be about 'friends' (Not the TV series). The memories we share, the things we learn, the difficulties we overcome, and the crazy things we do were all team effort with our dearest friends, and we can all agree on that right!

Adarsh Marthai

Life at IITH was definitely a roller-coaster. These four years are and will remain some of the most memorable years of my life. I found a bunch of great friends who has been with me throughout my highs and lows, and had great mentors who guided me throughout the journey.

Kuch un gujar gayi ye college ki jindagi.....  
Bade Utavle the yahan se jaane ko,  
Zindagi ke agle padaav pane ko,  
Per na jaane kyu.....  
Dile mein aaj kuch aur aata hai,  
Waqt ko rokne ka jee Chahta hai,  
Wo yaaro ke sang raato ko canteen me jaana,  
Khawboon ko sajana Naye rishte banana,  
"AMIR" aaya tha yahan anjaan bankar,  
Ja raha yahan se bahut yaaden le kar.

Md Anir Sohai

Saurabh Satpute

"Life is a beautiful dream, we just need to imagine it in the right way" :) IITH being a part of my dream gave me a chance to meet some exceptional friends/professors who have all different perspectives toward life. Getting into IITH gave me an immense opportunity in almost all diverse fields, and believe me as every semester goes by you will have a little feeling of regret as many things will catch your attention during this wonderful journey. Time flies so fast. The feeling that you get when you enter on the first day on campus and the moment when you need to wrap all your stuff to step out of this renowned institute are the feelings that will last forever in your heart. So make that feeling count.

I still remember the day I got IIITH during my counseling. I was excited and nervous at the same time as for the first time I was going this far from my home. Now, when I look back at the days spent at IIITH, I find these to be the most beautiful days I could have had. I met some of the smartest and hardworking people here and made few friends for life. So much learning, so many experiences, and millions of memories to cherish.

Mohammad Agaz

Life at IIITH has taught me that failure is an integral part of the learning process and I should not underestimate my mettle. It has given me people who I can always rely on. I will miss all those amazing moments I spent with them that now turned into memories.

Ashritha Veeramalla

IIT Hyderabad.

Venkat Ramaju

Life at IIITH was easy and challenging at the same time. I'm glad that I've got to share the campus with some beautiful hearts and brilliant minds. A big shout-out to all my peeps for standing by me in tough times and also for making my happy moments more memorable

P.S: Neel is not my surname.

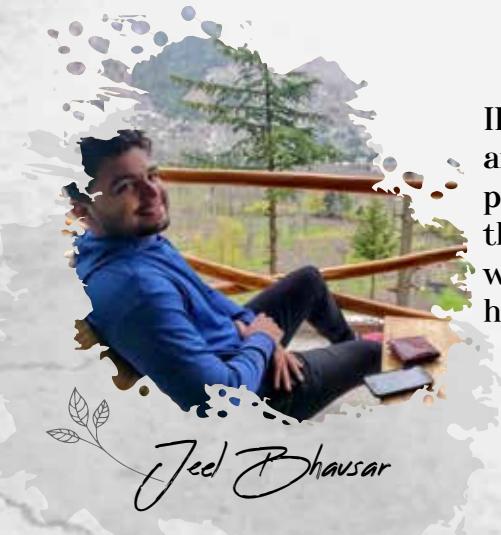

Gedolam Sanjana Neel

Been a ride, from ODF hostels to Aryabhata; from attending classes from 9 am to 9 pm, to sleeping from 9 am to 9 pm; from mafia to poker to cricket to squash and much more; and from no-mess food to no mess food :D. Lived it all.

Thanks, everyone.

Sidharth Goel

IIITH has been a thrilling roller-coaster ride of emotions, learning, experiences, and camaraderie, which was periodically punctuated by last-minute assignment & project submissions, exam preparations, and ever-changing senate rules that only the Acad section seemed to be privy to. My journey at IIITH has shaped me into who I am today, and my time here, I shall look back on and cherish, as long as my heartbeats.

Jeev Bhawsar

Lots of memories to cherish when I look back at my time at college. Those late-night walks on campus, night outs for exams the next day, waking up early on some mornings for Dosa. Awesome concerts and other memorable events in ELAN. Thank you IIITH for everything.

*Saahil Sirova*

I will always remember our awkward hellos  
And teary goodbyes.  
The late night horror films  
Under the moonlit sky.  
The last minute assignments  
And manchurian dry.  
The class presentations that  
Made us laugh till we cry

The campus was great  
Mess food even better,  
Had to satisfy late night cravings  
With a Maggi noodle platter.  
We showed up at Elan  
With a hella' lot of swagger  
Met a campus princess  
But never saw her later

We had a lot of time to study  
But we didn't and don't ask why.  
Wished for vacation but then  
Waited for the end of July.  
To start a new semester afresh  
With a "phod dega tera bhai".  
Somehow still ended up with good jobs  
Placement cell can verify

There were fights which we resolved  
In just one try.  
Pulled each others legs  
But still had a strong tie  
Remember the fake profile from which  
Our friend never got a reply?  
Alas, now we remember these memories  
With a deep sigh!"

*Arandita Bendigeri*

IIT Hyderabad, even though I stumbled upon it out of nowhere it was the best thing that happened to me. In all the small and big moments there was learning. These four years have made me stronger and more sensible than I once was. And of course, the best part of all of college life is still "My Friends".

*Anurag Shekhar*

It's very hard to express my IIITH experiences in a few sentences. For me, It was just perfect campus life. Without my friends, my seniors, and my lovely juniors it wouldn't be possible. I'm blessed to have you guys in my wonderful IIITH Journey. I can't forget those night walks with my friends, Dancing tirelessly on DJ Nights, Hutiypas in InterIIT, Late night Maggi, giving proxies to each other, and especially that Night Out when we took the lift in a truck and went Ram ki Bandi, at 3 am. I still cherish those evergreen moments.

If I had a time machine, I would definitely travel back to 2016.

*Akshay Raghavan*

*Kamsali Akshita Ramya*

Somewhere between Note Bundh to Desh Bundh, my four years of Btech was over. I have found a home away from home and learned a bit of Engineering(I mean, how to Google)

"MOTHER-FORKING-SHIRT-BALLS" The Good Place s1 e13 10:50

*Deepika Gonela*

College life at IITH was the best experience I ever had and I doubt there will be anything similar in the future. I will always cherish all the memories I made with my friends while playing games together all night or having tea with them in the evening or just simply hanging out together. It is these little things that I will miss forever.

*Shruti Agarwal*

These four years of college life is a very important part of my life and I am going to cherish it forever. There were ups and downs and they have taught me so many things. Whatever I am today is because of this amazing college. I have made friends here for life. Every moment spent with them was precious. I miss them a lot. I am excited for the new beginnings and the memories of these 4 years will be there with me always

*Shubham Kumar*

*G. Sairam Naik*

Before entering campus I was like a frog in the well. I'm happy that I got good friends, without them I'm nothing. The time period i travelled at IITH was totally different. Finally i came out with a bag of beautiful memories and happiness.

*Shaik Khalid Basha*

It has been an amazing journey at IITH - easily the best years of my life. I feel privileged to call some of the smartest people in India my (hopefully lifelong) friends.

*Adithya Hasapate*

The whole engineering college life itself is the best memory. Each experience I had in college life turned out to be my sweetest memory.

Looking back at the 4 years that I spent in engineering, there are so many memories that come as a flashback.

Some of those sweetest memories are :

1. Journey With Fab 4 (Ayaz+Aamir+Amir+Wasay)
2. Everlasting Marathi Gang
3. Sanjay Ka Yaarana
4. Gajendranath Sir's Guidance
5. Masti With Seniors and Juniors"

Sahil Khobragade

. The last 4-years of my life at IIT-H has played a pivotal role in transforming myself both professionally and personally. There were a lot of memories which were made. Those late-night brainstorming sessions, spooky late-night walks in ODF, playing pod cricket at odd hours, last-minute rush for exams and assignments, late-night biryanis at kings/Zamzam, choosing some very easy courses just for the sake of a grade. It was an enriching experience overall, and I'm glad that I've been part of this amazing journey we all had together

Yoge Nivesh Tungala

I spent 126230400 seconds of my life for a piece of paper and handshake. And, I didn't even get a handshake :/

Uma Reddy

S. Sanjana

My happiest phase of life was at IITH. I made countless and beautiful memories with my friends. We shared many moments, countless jokes, laughing at each other's embracing moments, dancing together, treats, long chats and many more. The best experience, memories made IITH something special to me.

Om Sitapara

The journey through the 4 years at IITH was indeed a memorable one. It was filled with all kinds of emotions and will always be an integral part of my life. I have now moved on to start a new journey but this one at IITH will always be remembered!

Shivam Samdani

An unforgettable journey. Made new friends, played, learned a lot. This is the place where I became DMG in CS:GO.

Entered as an ambivert, but leaving with 100x confidence (about life in general!) and best bunch of friends anyone could ask for.

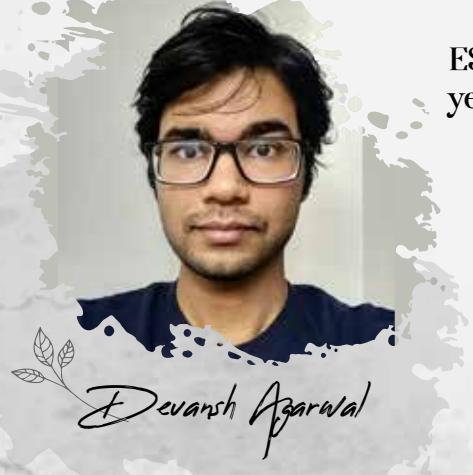

Nitish Chandra

B. Tech enjoying with friends who are unknown at starting and ended with whom you don't forget for the life time and best is Having beautiful moments like playing volleyball, one night preparations, bdy celebrations, late night dinners, bunking classes, watching movies with them. Miss you guys & love you ❤️

Porappu Ajit Dora

ES>>All other branches. Late night walks while eating ice cream and having logical yet illogical debates with friends-cum-family are the things that I will miss most.

Sri Lakshmi Ganna

"And I knew exactly what to do. But in a much more real sense, I had no idea what to do." - Michael Scott

Raja

I made many great and unforgettable memories in my 4 years, you can find some amazing characters around you in college, one of the best experiences I can share is performing on a big stage and representing our colleges, which I am going to miss a lot.

Jeevan Chandra

The four years I spent in IITH have sure been the best four years of my life. I got to learn many things and I changed a lot as a person. All credit goes to our Marathi group with whom I spent most of the time. I will really miss being with them. If a time machine ever gets invented, I would like to go back to ODF and spend these four years again. Also thanks a lot EP guys. I don't think that any college in the world would ever get people who are as like-minded and united as we were!

Ketan Iyengar

Sunsets will be much better with cleaner air

K. Snehita Manjna

Kunapareddy Dhana

R Vagesha Vardan

The past 4 years have been unforgettable and the most memorable time of my life. The experience you get when you make friends who speak different languages and later when you get adept at these languages were fruitful. Late night walks, volleyball, football, movies and computer games with friends were entertaining. My second year at ODF when half the people had shifted to Kandi had a very calm atmosphere and I miss that. The most exciting nights would be the ones that had an assignment deadline at midnight. "Miss that too LOL :)"

Sai Ashish Somayajula

Aditya Gottapalli

My experience at IIT Hyderabad has been life-changing. I practically grew up in this college from a teenager to a responsible adult. My college life taught me important life lessons, helped me make new friends and ultimately made me a better human being. There was the competitive first year, the overconfident second year, the nervous third year and finally the uncertain fourth year. Overall it was an adventure of its kind.

*Samedha Vadlamani*

A journey from a girl to a woman, an anxious to a composed person, many experiences and people paved way for my wonderful yet meaningful life here. I am grateful for all the happiness and hardships I faced here, for those made me who I am today.

My last 4 years of journey, in a nutshell, was a wonderful one. Met some of the smartest brains of the country, got new friends, made sweet and bitter memories, learnt a lot. I literally laugh when remembering the incidents that happened in my first years, IIITH has transformed me so much. I am extremely thankful for the people I met here and hope we stay connected for the rest of life, maybe that's why we didn't have a chance to say goodbye...

*Harshavardhan M*

*Deepesh Karmalkar*

From never having touched the hockey stick to leading the Institute Hockey Team. From never having played any video game to having more than three thousand hours on CSGO. Going out to parties with friends, preparing for the exam one night before the exam, submitting the assignments a minute before the deadline, it has been a surreal experience in IIITH with a lot of ups and downs. Cheers to seniors, juniors and fellow colleagues for making these 4 years memorable!

*Vidhan Jain*

A hell of a roller coaster ride with ups and downs. Still feels like yesterday when I came here and was so confused about everything. But it's good if it ends well. Cheers to the memories!

*Mani Teja*

I am grateful to be a part of the IITH community and also floor gang aaoouuhh.

Dadi Raj Kumar Naidu

My experience at IIT Hyderabad has taught me one fundamental thing - life is unpredictable. It might be good, it might be bad, it might be weird, and it might not interest you, but expect anything to happen. College life prepared me for all of this. It is a perfect blend of joy and hardships. Being a student, Being a Fresher, being a Junior, being a Senior, being a very good friend, and whatnot, it was a wonderful experience.

Solomon S

To start with my experience at IITH, I came to college to report my documents and I was a little disappointed with the look of the campus. Anyway, I came to know that it's not the campus that kept me happy. I am proud to say I've met my friends forever in IITH. Starting college life at ODF which I would say was completely new to many newcomers because nobody would have at least stayed in such a "cool" place before coming to IITH. Those journeys for class, the walks after food, the night canteen, late-night discussions were great memories for sure. One unforgettable thing from my first year was I attended a DAC meeting (not that I cheated!!) because of a surprise quiz (can you believe it!). Though it was a sad thing, I consider that as a crazy memory because hardly anyone gets a chance like that. :) Coming to the Kandi hostel, I felt like wow, cool rooms, one per room. Great! (later hated that facility). Slowly got attached to dhabas for food. Increase in the number of friends. Many activities, city visits, great time with classes, and friends. Coming to the third year, I started to hear the word "Internship" and I was scared coz no bit of coding knowledge, no core knowledge gained (thanks to fractal academics). Failed a lot of screening rounds and gave 1/2 interviews which also lasted with bitter outcomes. Finally (you think I got one, right?) without any internship experience I entered the 7th semester, the most crucial one for any UG student, and started my preparation with the help of seniors (one of the best things we get in college life). Yes! No other thoughts till placements. I only concentrated on my preparation. Placements have come, I was a bit nervous on Day 0 waiting for a call from the interviewer with my extra loaded resume. Got rejected in 4 interviews one after the other. EOD I felt exhausted but didn't give up. I edited my resume with whatever I was confident. Boom, the first interview the next day I got selected for JIO as SDE. Thus I was able to cross the major milestone. Now the plans began as everyone around me also got placed and was ready to give a kick-off start to the last semester. We enjoyed the time we had to the fullest. You know unfortunate things happen in life. We were at the edge of the execution of all farewell events planned but glad some of them happened online at least. Waiting for everything to get back to normal and a great convocation.

Grandhe Sumanth Kumar

Shreyash Ararase

My life at IITH revolved hugely around football. The four INTER IIT sports meets I participated in, gave me a sense of purpose. The nights spent playing CS GO with my friends in a single room in ODF; the nights in Kandi, spent with my buddies doing an array of activities, linger in my mind. Somehow every interesting thing happened in the latter half of the day.

Had a wonderful experience.

I would like to thank my arms for always being by my side. My legs for always supporting me and finally my fingers; because I could always count on them. Btw It's Harshitha, not Harshita.

Harshitha Chista

IIT Hyderabad, a place where I had the best 4 years of my life. My journey started at ODF and I will never in my life forget the 400 series. I will always cherish the memories of long night walks with my friends, playing cards for whole night just so that we could have Aloo parantha before we go to sleep, sitting at amul at 3 in the morning, zam-zam's way over-spicy chicken , trip to Goa and Dharamshala. I'm thankful to IIT Hyderabad for giving me all these great experiences and also preparing me to face any hardships and stress in life by giving us a huge number of assignments :) The only thing that I will regret is not getting my last 2 months and farewell at the college.

Bharat Gupta

Gadimallam Arusha

I had a great time in these 4 years, from last minute assignment submissions to endless Nescaf, talks with Cappuccino. I will cherish them for the rest of my life. Besides memories, campus teaches many things, from not-so-confident self to strong-independent individual. Yeah, will definitely miss the campus and friends.

Lakshmi Manya

To sum it up in a few words, it was cool cool cool cool cool cool cool. IYKYK.

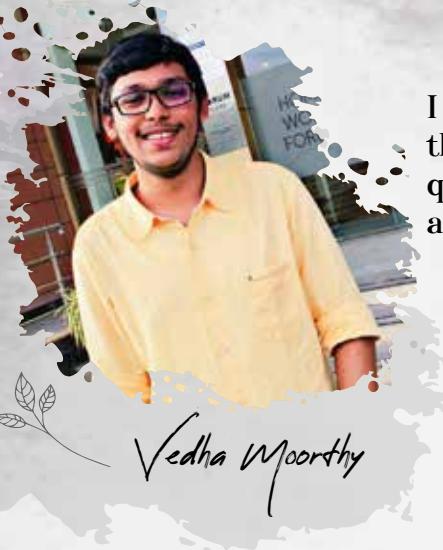

Vineeth Gus

Thanks to everyone for the wonderful trip!

Arand N Warrier

I don't quite remember what I had expected of my college life but it's safe to say, this wasn't what I had in mind. These four years of fractal academics, leisurely quizzing, late-night volleyball and dum biryanis have been quite oddly satisfying, and for that, IITH will always hold a special place in my heart.

Mayank Hooda

A bunch of kids entered the college premises with their teenage naivety away from home for the first time, celebrated their first big wins, and faced their first big heartbreaks together, ending up making a big family in those small pods. 18 and 21 are the most memorable landmarks of one's life and I couldn't have chosen a better set of idiots to spend them with. Books I read did not define my IIT experience, people I met did.

Pravesh

Life at IITH was something that changed me completely, as a person, my thoughts, my views on life, and much more. I made a lot of memories here which I will cherish for life. Forever in my heart, IITH.

Arjan Manj

Aah, where do I start with this.... This was a wild ride from the day I stepped into my ODF room as a confused 17 years old to a slightly less confused 21 years old. Every day was an adventure and I met some amazing people along the road. The night-outs with project presentations, hackathons and also talking about life:p, are some moments which I will cherish forever. Though we had an anti-climatic ending for our UG life, I am grateful for the personality development I had over the last 4 years.

The campus is nostalgic, which taught me everything that helped me to get success. Don't know what to share but IITH is an emotion. I didn't know about the IIT until I joined. I enjoyed every moment in IITH. when I don't know anything it made me curious about a lot of issues.and a lot more.

*Boda Omkareshwar*

---

College life was magical. I've seen many ups and downs in both academics and sports but the most memorable part was that I've seen them along with my friends.

Ram Arudeep

College was the best 3.75 years of my life.

*Sampada Pudke*

It's one of the best experiences is to be independent and free with many opportunities around you. Life at IIT H has not been easy but it has shaped me into the person I'm today. My only advice would be to make most of the opportunities you get and don't shy away from challenges. Of all the different things about IIT H, I will miss the incredibly talented and amazing people I got to meet here.

"INSAAN KAHA HAI"

The journey of joining this prestigious institute that is none other than IIT HYDERABAD as a boy started on 26.07.2016, after qualifying in world's toughest examination that is JEE Advanced. I was very excited about commencing my campus life to this institute like in the 3 idiots movie. On the very first day there was an "orientation" about my department which is Material Science and Metallurgical Engineering.

I split my journey of campus life into 3 parts

1. ACADEMIC LIFE
2. HOSTEL LIFE
3. CULTURAL LIFE

*B. Sahadith Venkat  
Trivinay*

*Tejas Aranda*

College was the best 3.75 years of my life.

#### ACADEMIC LIFE:

My academic life began on 1st of August. I attended classes regularly. I used to visit professors cabins regarding academics. From there onwards attending classes, submitting assignments on time, giving exams. Studying night before exams was a lot common and without sleeping to score good marks. The professors were always kind, helpful, caring, always welcomed with doors open for clearing doubts.

#### HOSTEL LIFE:

Here comes the most fun part of campus life.

My room and is the best room ever I stayed in the campus life, F-230. And my friends used to stay in H block. During free time, nights and weekends we used to play cricket in pod area and other that includes playing pranks on friends, binge watching talk about fun stuffs. We used to eat food outside the campus, dhabas, by walk, night walks, going to canteen, etc. we shared food delivery from swiggy and picking up the order from main gate by bus, this happened particularly during IPL by getting coupons when the batsmen hit sixes. One more instance was, several times there was a blackout in campus(power got disrupted), we used to scream, shout, display phone lights from our hostel room till the power got back. Those voices were heard all over the campus. There are many memorable moments which I cannot express in words.

They say, " HOSTEL LIFE IS THE BEST PART OF CAMPUS LIFE".

#### CULTURAL LIFE:

The second most fun part of campus life.

The most awaited event which happens annually that is ELAN & NVISION, which is a 3 day carnival. I also participated in this cultural festival in the event called "walk the ramp". From the first year itself I participated in this event and gained appreciation from the audiences and the whole institute. I shy away from fear and nervousness and participated confidently. Coming to second year I didn't take part in the events as I was busy volunteering for this fest. Again in 3rd and 4th year took part in the same walk the ramp event as I gained lot of appreciation from whole institute. That impression from friends and campus gradually increased from 1st year, 3rd year and 4th year. Finally in 4th year I came runner up in this event.

There was a freshers party in first year, in this event the host (second year) asked us to take flowers. Girls were called upon stage, told us to give flowers to one of these girls. I was very shy to give flower to them, I randomly gave the flower to one girl without seeing her face. In 3rd year I witnessed how farewell party was conducted to final year students who were passing out. Due to COVID-19 Pandemic unofficial farewell party was not held.

Due to COVID-19 pandemic national lockdown was imposed. I also witnessed the remaining part of academics run on the basis of online mode in April and May. For the first time in my life I experienced that online classes were conducted by institute, wrote exam from home. Therefore, on the 15th day of may 2020, on this day I completed engineering and last exam of engineering on Bharath sir's course, passed out as Material science and Metallurgical Engineer and claimed the tag "IITIAN".

On 9.08.2020, official e-farewell was conducted in online mode through live streaming YouTube for passing out

students. In this event students can share experiences faced in campus. This event was also streamed live on YouTube I was among the students to share the experiences in front of Director sir, Dean of Academics, HODs of all department professors and the batch of 2020. I was the only student from department to express the experience. Coming to my part of speech, I gave speech, after giving speech- Director sir, Dean of Academics and Bharath sir (HOD OF MSME), lauded and expressed my struggles that how much I struggled these 4 years of my life, Bharath sir rolled tears from his eyes.and invited my parents in the middle of the occasion and gave opportunity to my parents to speak on my struggles, which never happened in any farewell. As it was telecasted in youtube, I thought I had become celebrity.

So these are my several memories which happened in these 4 years of my campus life in this prestigious institute. I can write more about my experiences which cannot be expressed in words. Sharing my experience on this yearbook is not sufficient because there are so many memories, experiences to be shared that I should write a book instead of writing article for this yearbook in one or two pages.

The First Day On Campus: 26.07.2016	The Last Day on Campus: 08.03.2020
The First Day Of Hostel: 26.07.2016	The Last Day Of Hostel: 08.03.2020
The First Day Of Academics: 01.08.2016	The Last Day Of Academics: 15.05.2020
The First Day Of Elan Festival: 22.02.2017	The Last Day Of Elan Festival: 16.02.2020

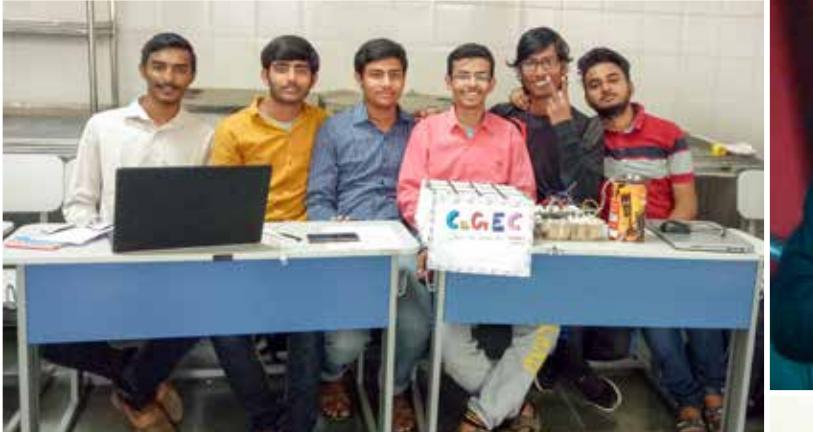

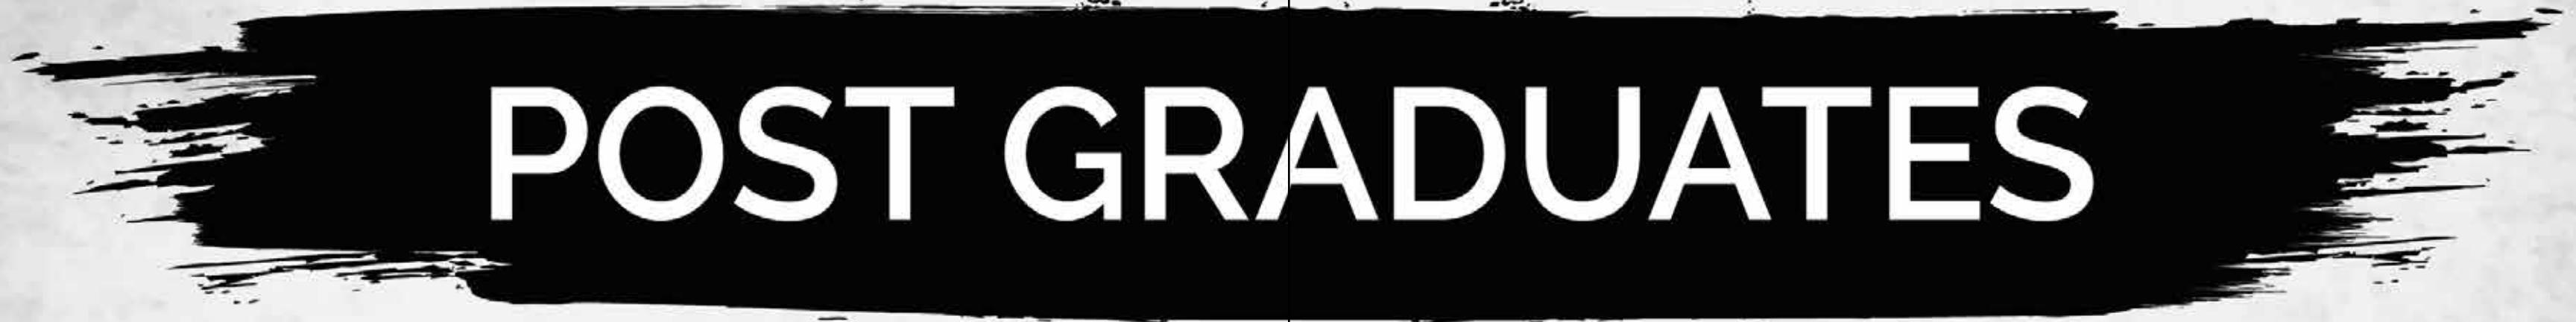

**POST GRADUATES**

I have no words to describe how good life has been at IIT Hyderabad. I have had the best time of my life here. I am leaving with good memories to cherish for a lifetime. No goodbyes as I will be here again! That's all I have to say!

Ashutosh Gupta

First of all, I got good friends from all over India. We got a memorable welcome party from our seniors. On that occasion, I could see the talents of my classmates. The events conducted by Elan and Envision were awesome. We enjoyed every music and cultural event as possible. I could participate in some of the competitions conducted by them. I can't forget the Onam celebration coordinated by the IITH Malayali community! I participated in the December 2018 Inter IIT sports competition as a part of the volleyball team. That was a story with beautiful scenes, new places, new friends. When Kerala had experienced the worst flood ever, the Malayali community in the Institute gathered and contributed lots of essentials things and money as well as provided real-time monitoring and assisting services to the affected people. I praise those efforts.

The life in IITH worth of enjoying.

It has been a great experience in IITH for the past two years. From 'random people' around to having a 'family for a lifetime', there were tons of memories there. Being a PG Representative in Gymkhana was both fun and challenging at the same time. Altogether, we truly lived each moment there! Miss being in IITH! ❤️

Jesna Fathima

Vysakh PV

Prabhu ram A

Life at IIT Hyderabad started for me in P shed hostels, which never looked like hostels on the outside, still felt like a home on the inside because of the friends I made. Thanks to these people (Parth, Naresh, Shripad, Karthik, Shepal, Pravin, Faraz, Mahesh, Naveen), my 2 years at IITH have seen some great moments. Thanks to Athira and Navneeth for the memories during my initial days at IITH. I have been a part of the cricket team since my first semester and I would like to thank every single teammate for all the memories they have given me (especially, Btv, Adarsh, Pavan, and Sharath). It has been a great journey altogether, and I consider myself really lucky to have been part of this great campus.

Adrija Ghosh

Dhrav Bhatnagar

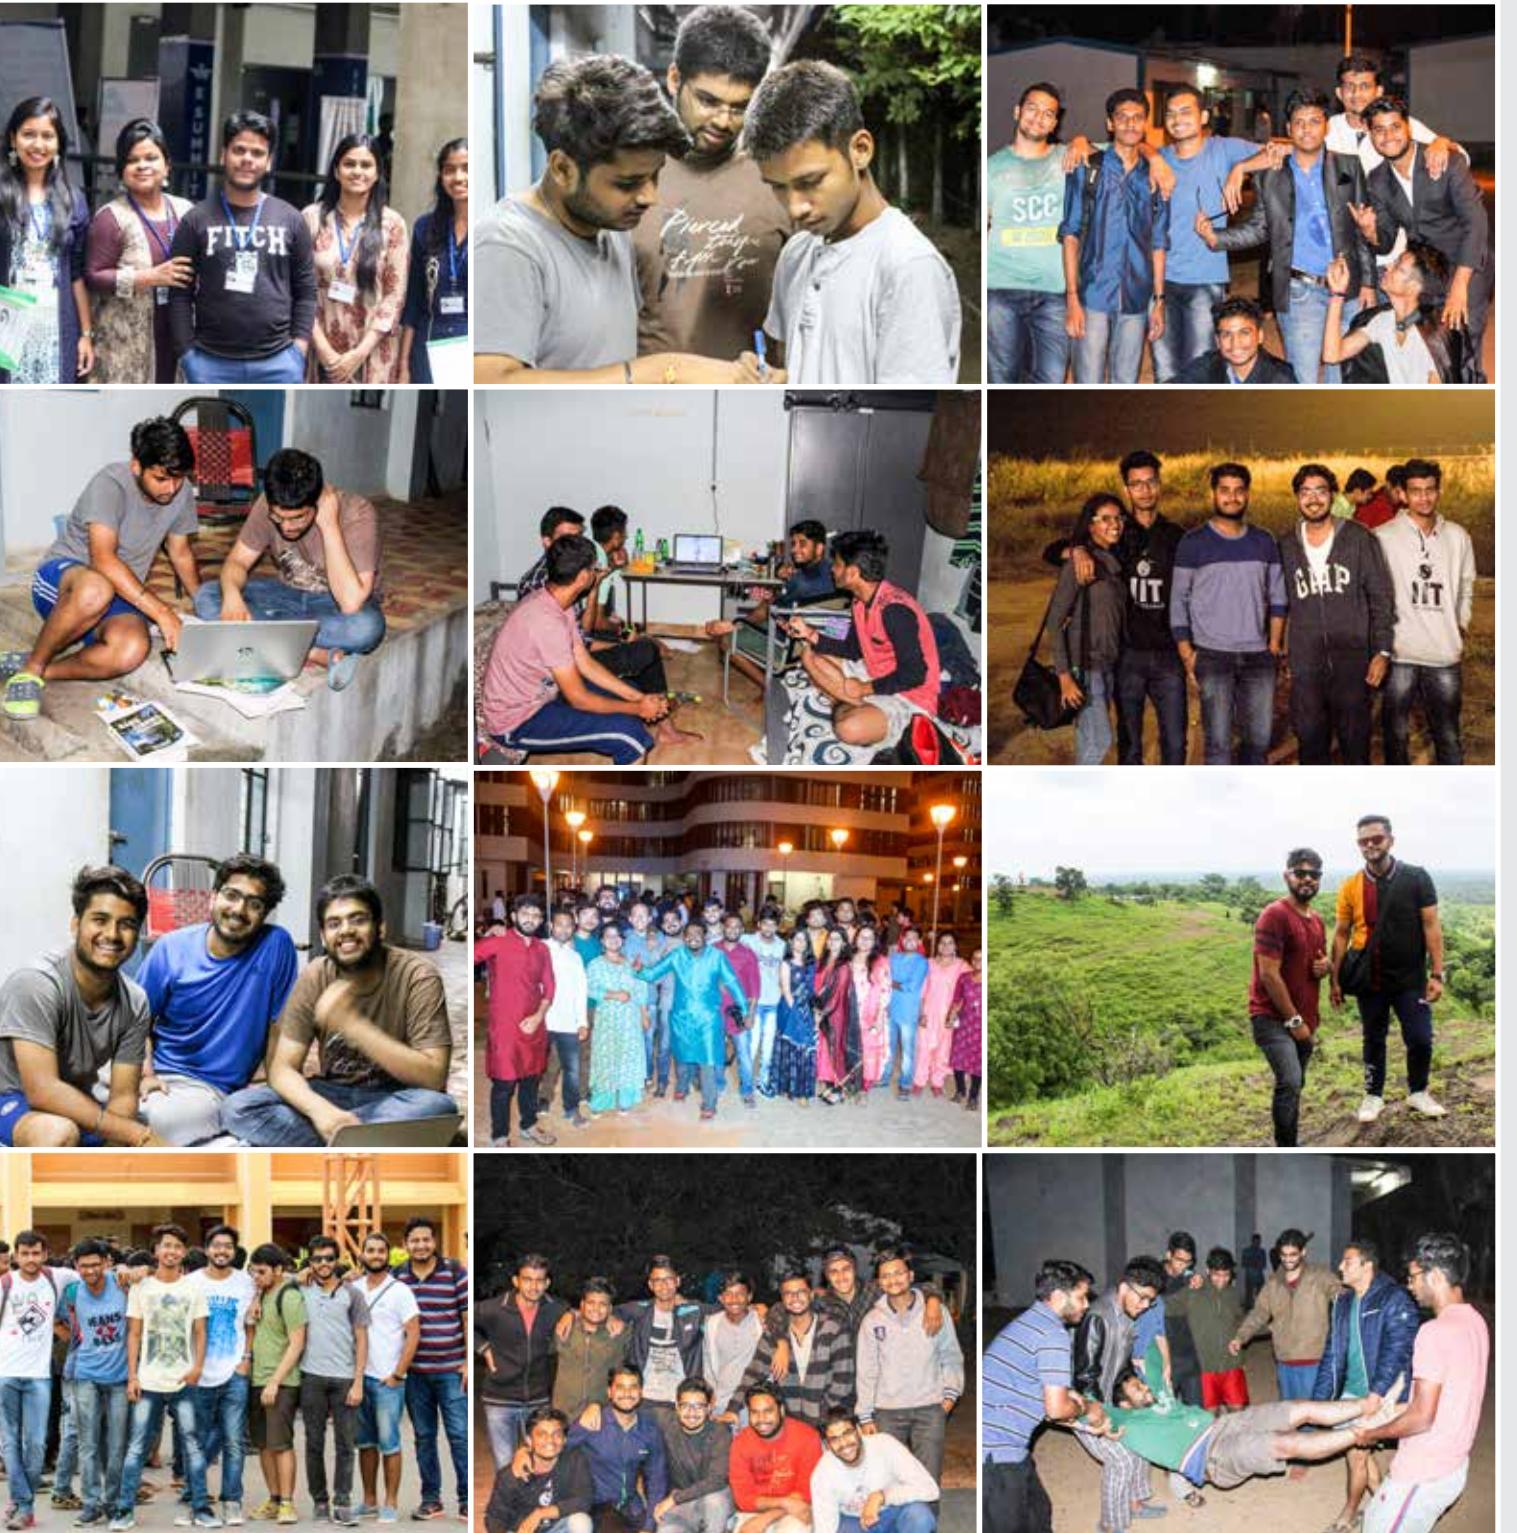

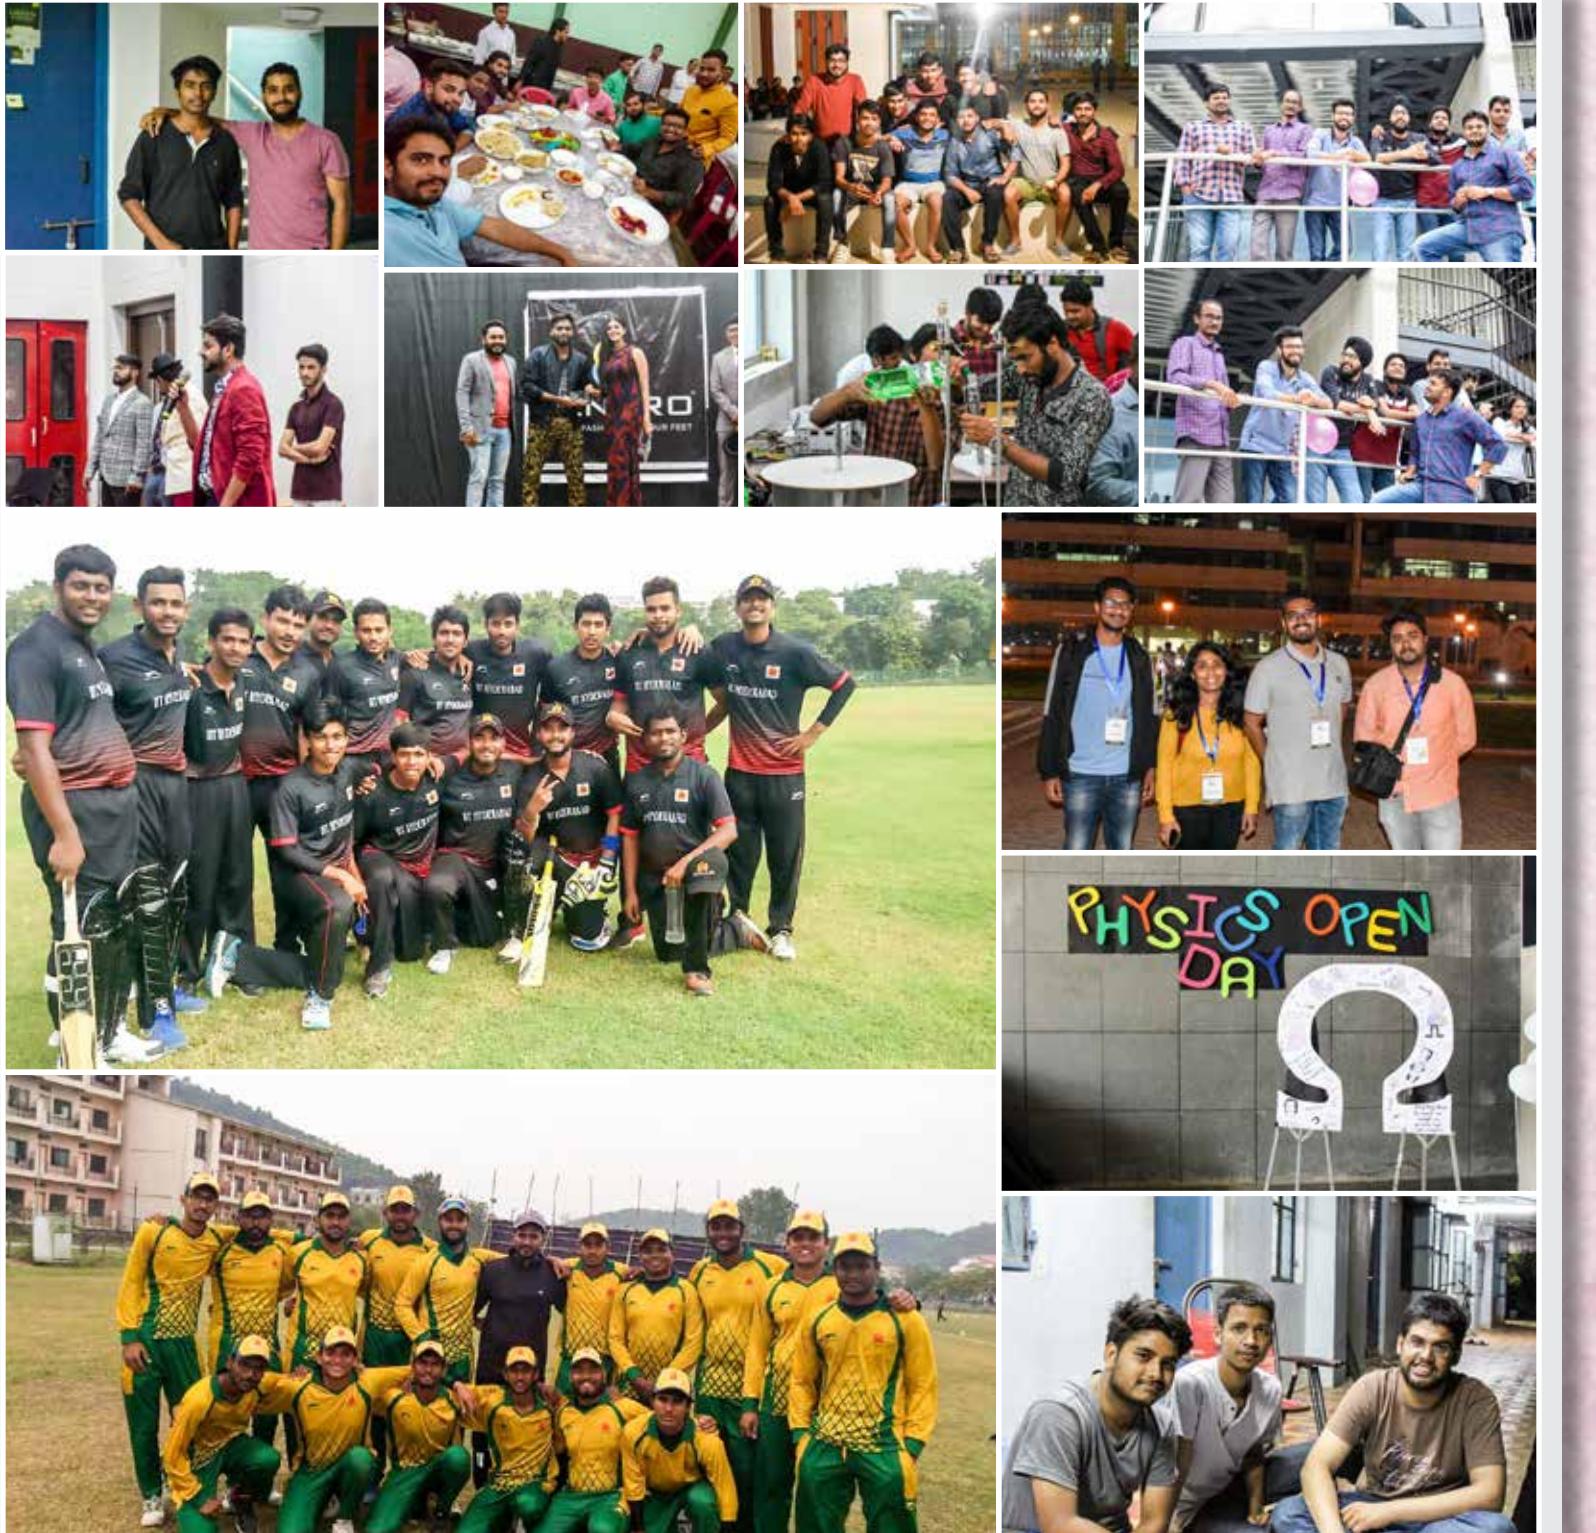

Best time of my life made some good friends. Thanks to my professor and doctoral students for helping me with academics as well as my master thesis. I wish that spend those last three months on the IIT campus, but I could not because of the COVID19 lockdown. Overall the experience was great. I convey my good wishes to all my classmates, juniors, and seniors for their future endeavors.

Ashika Chaurasia

Two years of my time in IIITH were the best two years of my life. (Damn you COVID - ruined my last three months) I made many friends, it is because of them only my IIITH experience is wonderful. I still remember those days when we had assignments deadline and how we used to complete them on the last day. How can I forget big queues in our mess on Sunday and special dinner? DJ nights with unlimited ice-creams and friends - the perfect combination. If I get another chance, I would like to experience IIITH all over again.

# POST DOCTORATES

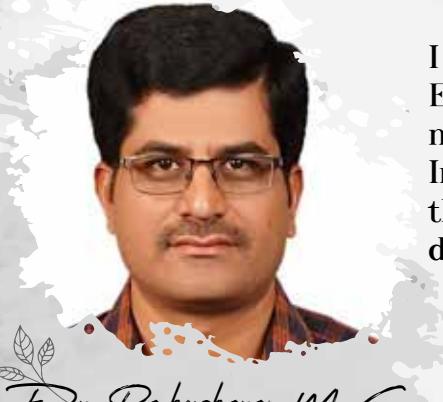

My journey started from IIT ODF campus. Life was simple there but tough. We slowly moved on to the new campus. We had one of the best faculties, who were very friendly and maintained 100% professional work culture. The five years of PhD is such an experience that everyone will cherish for the rest of life.

*Sanghamitra Debroy*

I was an external PhD candidate. It was a nice experience. The professors and students helped me a lot to resolve the difficulties. My PhD guide, Mohammed Zafar Ali Khan, was kind and supportive.

*Santu Sardar*

I joined the PhD program in the Dept. of Civil Engineering at the age of 36 in External mode. I was afraid of faculty and IIT standards. I was tensed. But during my course work, the faculty of Civil Engineering never treated me separately. Instead, they encouraged me more which helped me to acquire good grades. Also, I thank my guide Dr Surendra Nadh Somala, for his support and constant pursuance during my PhD, which helped me complete within 5 years.

*Dr. Raghu Charan M C*

IITH was the best academic space in my life. The food, hostel and teachers, staff and friends at IITH were an interesting amalgamation that I will always cherish and long for. I miss the nonhumans that I encountered every day during the morning run. Wish peace and health to all at IITH.

*Sudarshan R Kottai*

Firstly, Research facilities provided by IIT Hyderabad was excellent. The care that was taken and the support given by my guide and DC members was extraordinary. Irrespective of Department, the support given by fellow research scholars was outstanding. I possibly can not share my experience at IIT Hyderabad in 3-4 lines. Thank you, Sarath.

*Ssr. Sarathbabu Duvvuri*

*Yoghitha Ramamoorthi*

IIT Hyderabad gave me a life-changing experience. Starting from ODF campus to Kandi campus, I loved each and every instant. When I look back, all the lab time, coffee break, discussions, arguments, and academic works were sweetest memories. Every moment of laughing, fighting, eating, and midnight roaming was beautiful with you, Paasamalargal Pasangala. Thanks to my supervisor Dr Abhinav Kumar and my IITH family who were with me during my ups and downs. Great thanks for their consistent and valuable support.

I am glad I chose IIITH for my PhD Research in Biomedical engineering. The research facilities provided for me are at par with global standards. The international exposure we get from being in the IIITH community aspired me to be on a path of being a global leader. I would like to thank the Biomedical department and my supervisor Dr Subha for his support throughout my research career at IIITH.

*Uday Kiran Roopavath*

The experience at IIITH was very nice and cool. I started my Ph.D. career at IIITH in 2015 under the supervision of Prof. Ch. Subrahmanyam in the Chemistry department. I spent more time on the ODF campus, and the hostel rooms are good, and the mess food was delicious. The medical and bus facilities are beneficial for me, and I enjoyed cultural programs at IIT Hyderabad.

*KV Ashok Kumar*

I am taught one basic thing from my experience in IIT Hyderabad is "Growth is an erratic forward movement: two steps forward, one step back." Initially, the essence of the work assigned was tremendously huge, and I couldn't dodge it. But for the next three years, though, I did. The training and weekend lectures I have received from my guide are now explicitly being reflected in my current job, and that has made the whole experience rewarding and engaging. Moreover, I met some of the greatest people there who nurtured and supported me in a way nobody can. Overall it was a life-changing experience where I dreamt, strived and failed before achieving success.

*Mukul Sharma*

I have aspired to be an IITian from my childhood days. The moment my dream, rather my mom's, came true was when I joined IIT Hyderabad. My relationship with IIITH is quite long: 6+ years. IIITH gave me a lot of first time moments to cherish and preserve throughout my lifetime. It walks me through a journey where I learnt many aspects of life playing a crucial role in moulding my personal, professional and academic career. Thanks, IIITH for giving me friends, family, wellwishes, colleagues, memories and learnings we made together.

*Dr. Sandesh S*

My experience at IIT Hyderabad is the most memorable time of my life. Thinking about the days I spent always makes me smile and I cherish those moments every day. I engaged in many curricular and extracurricular activities. It has prepared me well to take challenges for next endeavours. My guide, friends, colleagues, Non-teaching and security staff have been supportive throughout.

ÿ

*Anandeep Girdhar*

*Dr. Shivakalyani Adepu*

IIT Hyderabad has transformed me from a research scholar to an independent researcher. The faculty here are so young and dynamic, who are always ready and open to newer ideas and methods which facilitated me to do the research with no boundaries.

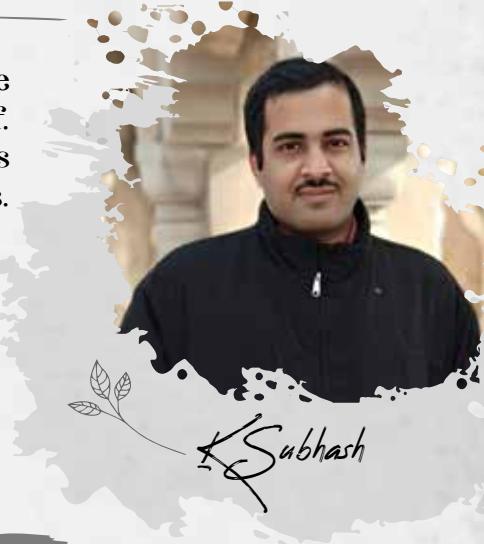

My journey at IIT was fun both for academics and extra-curricular activities. It gave me an opportunity to learn from awesome people around me and grow both at a professional and personal level.

*Swati Bhardwaj*

---

Get a result, the night is sleepless. Don't get a result, the night is sleepless. The end result: the whole thing was like a dream which you can't get enough of. It was a memorable learning journey that I will always cherish. I will always remember the night walks around the campus with friends.

*K Subhash*

---

Life is a learning process, which never ends. I had started my research life as a newborn baby, and our IIT-H provided me with enough, and fed me, and helped me grow into an adult researcher. With your (IIT-H) knowledge and research input, I want to make life prosperous and same for you all. I am very much thankful to my supervisor Dr Jyoti Ranjan Mohanty, Dept. of Physics, and associated staff. Finally all my well-wishers, family and parents.

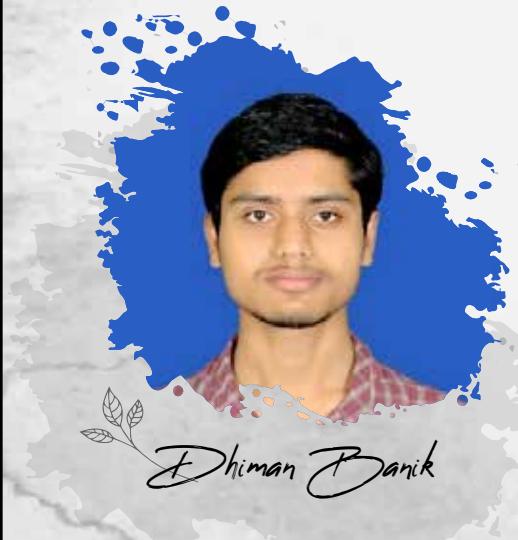

*Soundarraj Anamalai*

*Shanti Saroop Kandala*

I can put it as before IIITH and after IIITH. Apart from making friends, my stay at IIITH taught me how to handle myself during any crisis. It was here that I again learned to handle my failure and take success with humility and humbleness. Impressions left on me by IIITH are surely going to be remembered for a lifetime.

*Dhiman Banik*

---

Highly enriching and beautiful. I was back on a college campus as a student after a gap of 15 years. Living in the hostel, dining with friends and colleagues, late-night volleyball games and the pulsating feeling just before the exams were really memorable.

*Dr. Basant Kumar*

---

It was a pleasant experience and experienced a professional environment. I acquired a wealth of knowledge and memories during my stay at IIT Hyderabad. I'll be happy to extend my help in any manner within my capabilities if required.

I learnt some valuable professional values at IITH. Made some good friends with whom I spent most of the time.

Naveen Kumar Nakarakanti

Konjengbam Arind

If I could describe my PhD experience in a word I would pick the word “challenging”. Be gritty, be resilient and never give up. These are the three things that my PhD journey has taught me.

Raghu Piska

I had the unique opportunity to experience IITH transformed from the old ODF campus to the new Kandi campus. I have met teachers and friends that made me feel like a family. The departmental birthday celebrations and ice-cream nights were some of my favourite memories.

Gandrathi Narendra Goad

Wonderful faculty and research support, I express my heartfelt thanks to the teaching and non-teaching staff.

Dr. Bhairi Lakshminarayana

Excellent research environment, found good friends.

## IIT-H develops drug delivery system to treat fungal infections

EMS @iitbhv

A team of researchers at the Indian Institute of Technology (IIT) Hyderabad have developed a new drug delivery system to treat fungal infections, without running the risk of inducing drug resistance. The method, which is based on essential oils, can also combat three types of fungi that have developed resistance to conventional antifungal drugs.

Microorganisms such as bacteria and fungi have a remarkable ability to even withstand harsh agents used to destroy them. There are several instances of this and the drug industry is facing a big challenge with many antibiotics becoming ineffective.

The research was led by Dr Madhavi Khambhati, associate professor, IIT Hyderabad, with her PhD student Shrikalyan Adepu (left) at a laboratory in the University campus.

Foot and nail fungus caused by the Candida family of fungi, drug resistance can become uncontrollable, burst release of the ingredients.

To find a solution for the increasing problem, the IIT-H team turned to natural products.

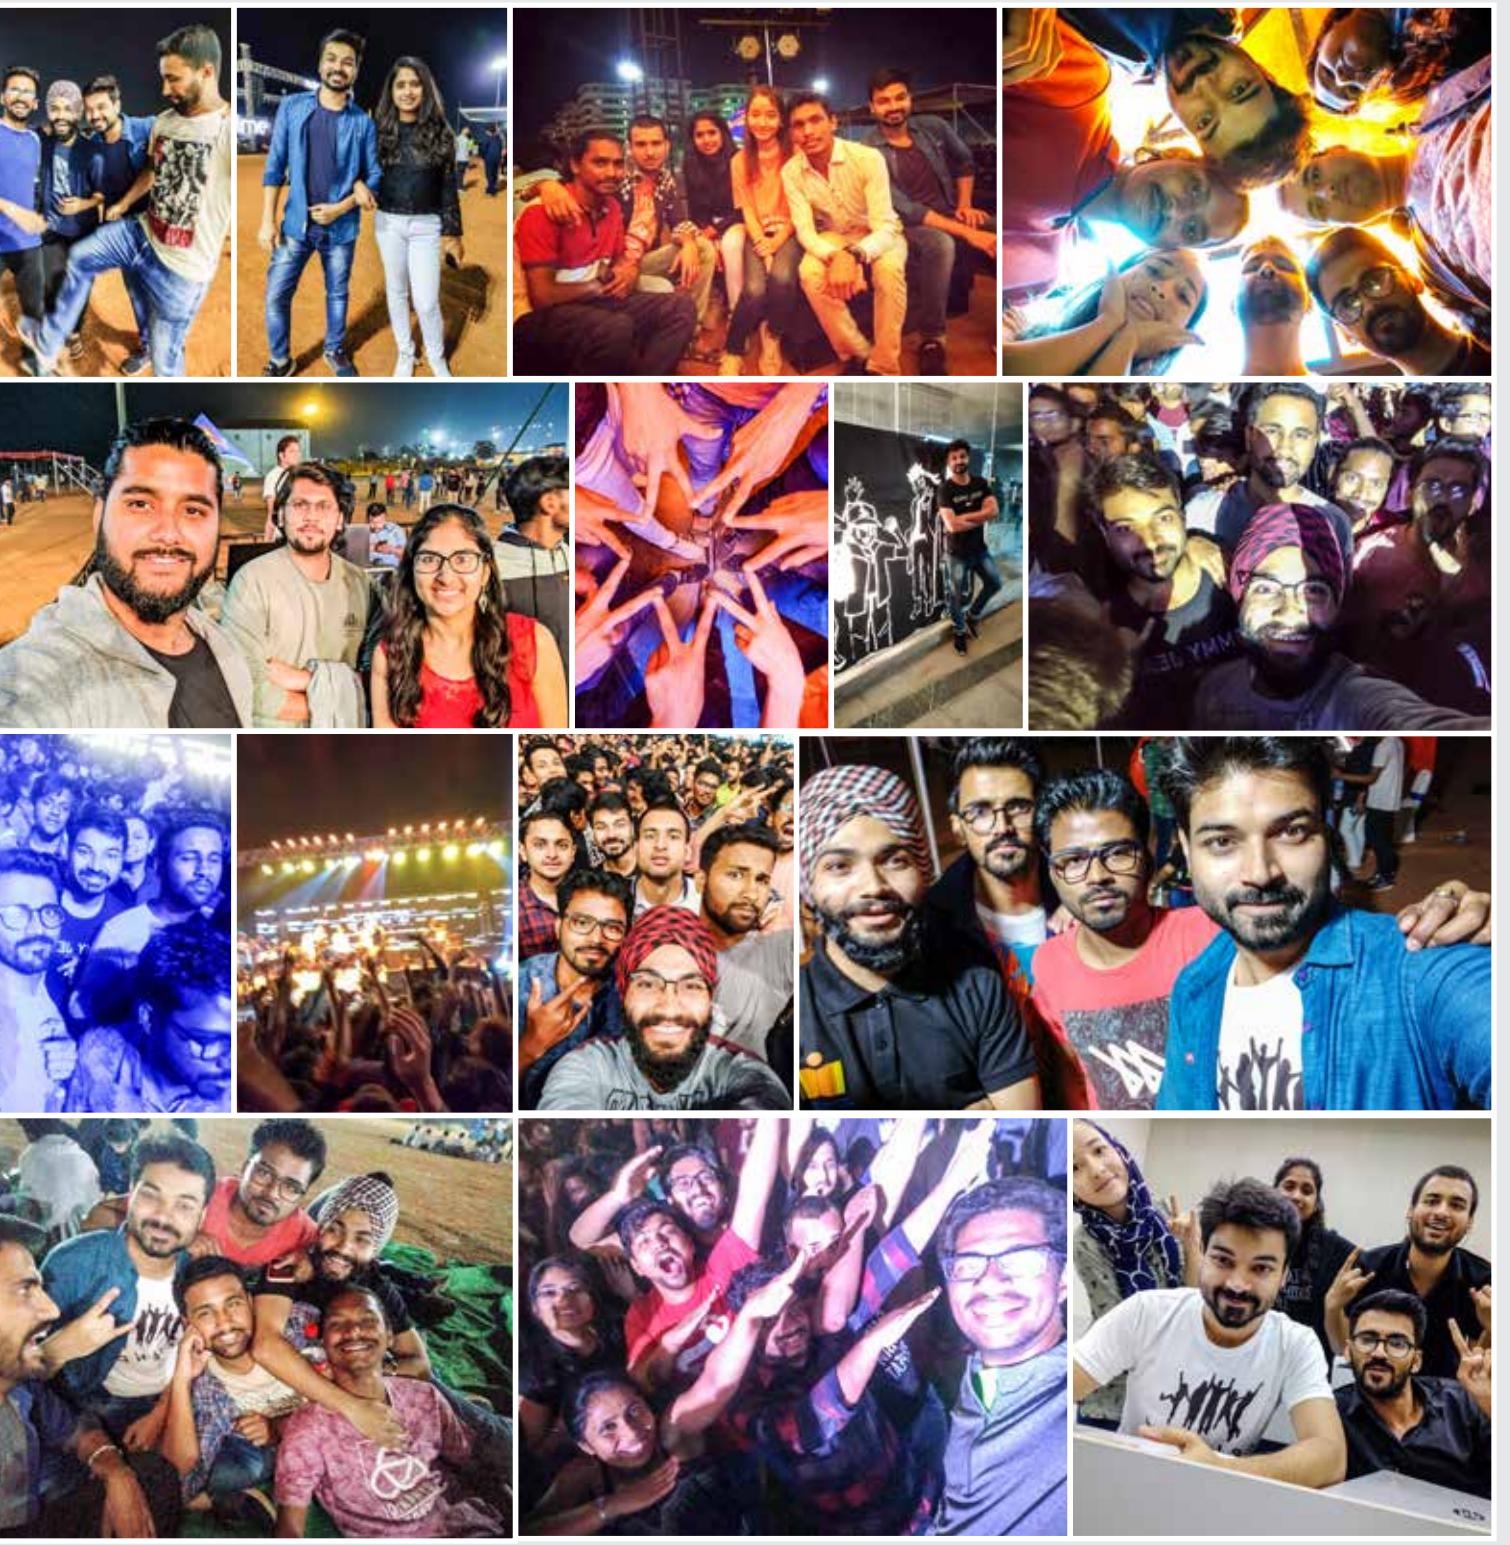

"Several essential oils and their ingredients are a promising class of anti-fungal microbials. Thymol found in oregano oils, carvacrol found in thyme and eugenol found in clove have excellent antimicrobial properties against all types of Candida fungi," she added.

A way to overcome this problem is to design a suitable carrier system that can protect the oil-active principles

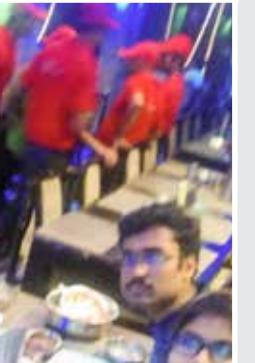

# ACHIEVEMENTS

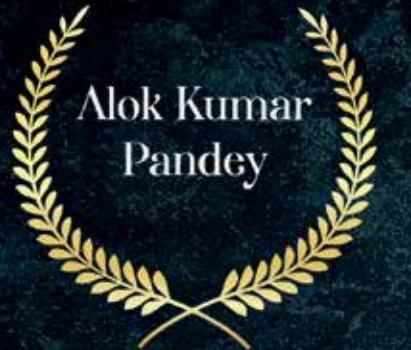

(Class of 2020)

## RESEARCH:

Muhsin P

Summer fellowship from Indian Academy of Sciences.

Alok Kumar  
Pandey

INAE Innovative Student Projects Award 2020. Title: Pencil Lead based Graphite-Silica Composite Anodes for Practical Lithium-ion Batteries.

Raghu

Excellence in Research award by IIT Hyderabad (2017-18)

**Our seniors have made us proud time and again and have given us an infinite amount of reasons to look up to them.**

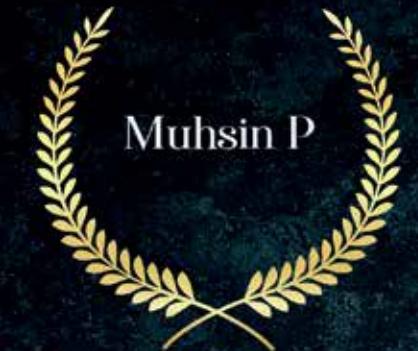

**So let's once again applaud their achievements as we memorialize the same in the following pages**

# ACADEMICS:

Vudit Singh

JICA Scholar

Muhsin P

I got PhD offer from Charles University  
(Czech Republic)

Prabhat  
Kumar Rai

Research excellence award ,2019

Sayan  
Ghatak

Excellence in Research Award,  
Academics Award

Dr. Santhosh  
S

- 12 plus publications and patents.

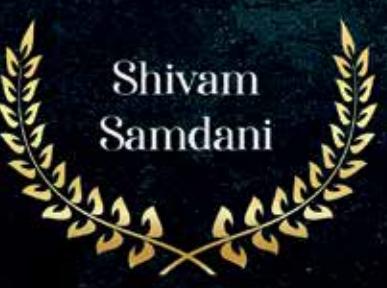

Raghu

Best paper award at International  
Conference (PHENMA 2017).

Pran Prateep  
Burramsetty

Academic Excellence Award (2018,  
2020)

Shivam  
Samdani

Participated for SAKURA Exchange  
Program, Ritsumeikan University

Shruti  
Agarwal

One among the 10 students who got  
selected for IITH-RU program

# CULTURAL:

Malkajgiri  
Bhavya Sri

Selected for HHI(Hip hop  
international) consecutively 3 times  
from the dance

Raja Naik

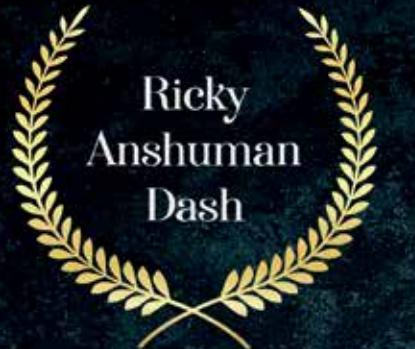

Participated in Inter IIT cultural meet  
2k18 & 2k19

# SPORTS:

Kundan  
Manupati

Captain for inter IIT badminton team  
for 2 years

Ricky  
Anshuman  
Dash

Represented IITH Basketball Club in  
Inter IIT Sports meet

Shreyash  
Anarase

Represented IITH FC in INTER IIT  
Sports meets (4 years)

Bharat  
Gupta

Inter IIT in table tennis

Sachin  
Yadav

Represented IITH cricket team at inter  
IIT Sports 2019

Raghu

Represented IIT Hyderabad at Inter  
IIT sports meet 2019 (Table tennis)

Ajmeera  
Swarna Naik

Have been part of inter IIT  
sports(volleyball) meet for 3 years.

Raja Naik

Represented IIT Hyderabad in 2017  
inter IIT sports meet in cricket

Deeptesh  
Karmalkar

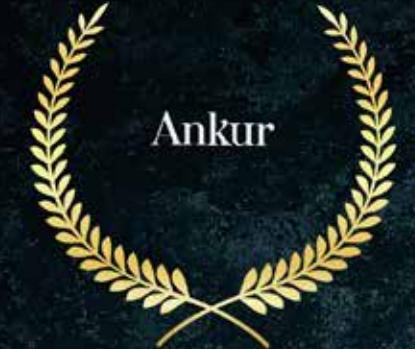

Represented IITH in Inter IIT Sports  
Meet in Hockey & Chess(2016, 17,  
18, 19)

# SCITECH:

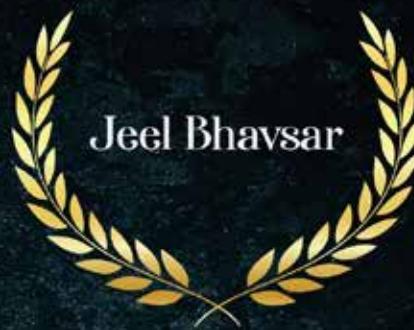

Supreet Singh

Took initiative for setting up and  
maintaining Discourse.

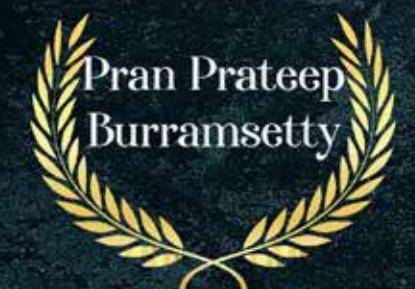

Ankur

Participated in BITGRIT event of inter  
IIT Roorkee 2019

Jeel Bhavsar

Silver Medal, Inter IIT Tech Meet  
2020

Pran Prateep  
Burramsetty

Silver medal - Routing Problem  
(Bosch) - Inter IIT Techmeet 2019.

## MORE ACHIEVEMENTS:

Muhsin P

Started a small edtech startups by the name 'EDUZEAL'.

PRABHAT  
KUMAR RAI

Winner of Smart India Hackathon (SIH) 2019, participated with team name "SNAAPP".

Sayan Ghatak

Winner, Design X Awards, Best Design Student, UX India 2019  
Winner, IXDD Designathon'19, IXDA, UXC, Value Labs

Dr. Santhosh  
S

Appointed as IEEE Nanotechnology Council Young Professionals India Representative

Manasi  
Mahesh  
Deshpande

Special Jury Award, Design X Awards, UX India 2018  
Top 5 Contestants Award, Design X Awards, UX India 2018

# MEDAL WINNERS

(Class of 2020)

B TECH

**MD AAMIR SOHAIL**

PRESIDENT OF INDIA GOLD MEDAL FOR SECURING HIGHEST OVERALL CGPA IN BTECH

**PALLAVI NAYYAR**

INSTITUTE GOLD MEDAL FOR SECURING HIGHEST OVERALL CGPA IN MSC

**P ILAMATHY**

INSTITUTE GOLD MEDAL FOR SECURING HIGHEST OVERALL CGPA IN MTECH

**AITHU SNEHITH**

INSTITUTE GOLD MEDAL FOR EXCELLENCE IN ACADEMICS AND CO-CURRICULAR ACTIVITIES

**SHIVAM DILIP SAMDANI**

FOR SECURING HIGHEST CGPA IN BTECH CHEMICAL ENGINEERING (CLASS OF 2020)

**RAMOJU VENKATA BRAHMACHARI**

FOR SECURING HIGHEST CGPA IN BTECH CIVIL ENGINEERING (CLASS OF 2020)

**MAYANK HOODA**

FOR SECURING HIGHEST CGPA IN BTECH COMPUTER SCIENCE & ENGINEERING (CLASS OF 2020)

**MD AAMIR SOHAIL**

INSTITUTE GOLD MEDAL FOR EXCELLENCE IN ACADEMICS AND CO-CURRICULAR ACTIVITIES

B T E C H

**IYENDAR KETAN RANGAN**

FOR SECURING HIGHEST CGPA BTECH  
ENGINEERING PHYSICS (CLASS OF 2020)

**DEVANSH AGARWAL**

FOR SECURING HIGHEST CGPA BTECH  
ENGINEERING SCIENCE (CLASS OF 2020)

**GOLLAPALLI ADITYA**

FOR SECURING HIGHEST CGPA BTECH  
MATERIALS SCIENCE & METALLURGICAL  
ENGINEERING (CLASS OF 2020)

**RYALI SAI NAGA RAVI  
BHARADWAJA**

FOR SECURING HIGHEST CGPA BTECH  
MECHANICAL ENGINEERING (CLASS OF 2020)

M S C

**PALLAVI NAYYAR**

FOR SECURING HIGHEST CGPA IN MSC  
CHEMISTRY (CLASS OF 2020)

**AKSHAYA R**

FOR SECURING HIGHEST CGPA IN MSC  
MATHEMATICS (CLASS OF 2020)

**RAHUL JOSHI**

FOR SECURING HIGHEST CGPA IN M.SC.  
PHYSICS (CLASS OF 2020)

**SACHIN YADAV**

FOR SECURING HIGHEST CGPA IN MTECH  
BIOMEDICAL ENGINEERING (CLASS OF 2020)

**ETI CHAUDHARY**

FOR SECURING HIGHEST CGPA IN MTECH  
COMPUTER SCIENCE & ENGINEERING (CLASS  
OF 2020)

**P ILAMATHY**

FOR SECURING HIGHEST CGPA IN MTECH  
BIOTECHNOLOGY (CLASS OF 2020)

**SALIL TUSHAR DIGHE**

FOR SECURING HIGHEST CGPA IN MTECH  
ELECTRICAL ENGINEERING (CLASS OF 2020)

**PALKESH SAKLECHA**

FOR SECURING HIGHEST CGPA IN MTECH  
CHEMICAL ENGINEERING (CLASS OF 2020)

**VALAVA S R**

HIGHEST CGPA IN MTECH MATERIALS SCIENCE  
& METALLURGICAL ENGINEERING (CLASS OF  
2020)

**AMIT SAINI**

FOR SECURING HIGHEST CGPA IN MTECH CIVIL  
ENGINEERING (CLASS OF 2020)

**VUPPULA VIJAYKUMAR  
REDDY**

HIGHEST CGPA IN MTECH MECHANICAL  
ENGINEERING (CLASS OF 2020)

**SANTANU PATTANAYAK**

HIGHEST CGPA IN MTECH IN DATA SCIENCES IN  
COMPUTER SCIENCE & ENGINEERING(CLASS  
OF 2020)

**SAYAN GHATAK**

HIGHEST CGPA IN MDES (CLASS OF 2020)

**FATHIMA SANA SHIREEN**

**NAJEEB**

HIGHEST CGPA IN MPHIL LIBERAL ARTS (CLASS  
OF 2020)

# FAREWELL AWARDS B.TECH 2020

## THE MISSING PERSON

(the person who rarely attends the class)

Atharv Joshi

## THE MAGGU

(the textbook nerd)

Shivam Samdani

## MODERN CINDERELLA

Sanjana Neel

## THE NIGHTINGALE

Sampada & Arjun Manoj

## THE CHAMELEON

(the person who hangs out more with people of other branches)

Tejas Ananda

## THE IMPOSTER

(the guy who says he'll fail but aces the exam)

Shruti Aggarwal

## PRABHU DEVA OF IITH

Raja Naik & Keerthi

## WINNER OF COMICSTAAN

Neeraj Tak

## THE CREWMATE

(the person who helps everyone the most in assignments)

Ketan Iyenger

## VENDI MAN/WOMEN

(the person whose primary source of food is the vending machine)

Sai Dheeraj

## CHAMBER OF SECRETS

(one who knows everyone's secrets)

Swapnil Joshi

## CERELAC HOMES

(One who solves major issues in the campus)

Vishwajith Rathod & Aayush Kumar

## A MESSAGE FROM THE EDITOR

The days of BTech indeed fly by too fast and leave us with a desire to relive them. This was an attempt to capture your four years- the triumphant feeling when you entered one of the most prestigious universities in the country, the days filled with rants about the mess and acads, the mail wars, the excitement in the air during the days approaching the fests, midnight deadlines and the unending caffeine consumption that got you past them, and most importantly, the people you shared all of this with.

We can't possibly curse the pandemic anymore than we already are for robbing us of our chance to throw you a farewell you deserve. But we saw an opportunity to create something a little more tangible and grabbed it. We hope you enjoyed the first edition of the IITH Yearbook. We'd like to extend our heartfelt thanks to the faculty, the staff, and the yearbook team for their tremendous help and support.

We couldn't be prouder of what you are today! Our best wishes will always be with you as you achieve greater heights in your life.

Congratulations and godspeed!

Vaishnavi Kanyaboina  
Undergraduate Representative  
Student Gymkhana,IIT Hyderabad
